Clinton Gets Up Close to New China

Shop Talk Yields to Shopping

By Seth Faison New York Times Service

SHANGHAI — With the issue-laden leg of his China trip largely behind him, President Bill Clinton and his entourage have come to the country's most cosmopolitan city. To put his finger on the vibrant pulse of modern China, his aides said, Mr. Clinton is spending two days and three nights here talking to regular people.

Driving down the winding avenues of neon that advertise a distinctly commercial sensibility in Shanghai, his motorcade went Monday evening from the airport to the thriving waterfront, the visual centerpiece of any tour of this megacity of 14 million, China's largest. A meeting

Tuesday morning with entrepreneurs, community leaders and homeowners in Shanghai was intended to accent the dynamic, fast-growing economic side of China, though it veered off into other topics, from the law to religion. Mr. Clinton also assembled seven

"agents of change" for a roundtable discussion at the Shanghai Library and then appeared on a call-in radio show.

"Everyone understands there is a new China that is more prosperous, more open and more dynamic," Mr. Clinton said. "The purpose here is to help me and my wife and the American people understand the changes that are going on in modern China and the challenges that are out there and what all of you are doing in your lives to deal with those changes."

The group included a law professor, a consumer advocate, a physicist, an economist and a bishop who spent years in prison. Unlike two earlier addresses by Mr. Clinton in China, this event was not carried live on Chinese television.

SHANGHAI -- President Bill Clinton fulfilled Tuesday what may have been China's main demand of the summit meeting by declaring that the United States does not support an independent Taiwan, will oppose Taiwan's entry into organizations of nation-states and that Washington does not support a policy of "one China, one

The statement, made in an informal discussion with Chinese intellectuals in Shanghai, was the first time a U.S. president has enunciated what has come to be known as the

policy. Mr. Clinton said the United States supported the peaceful reunification of China and Taiwan, which Beijing

considers a breakaway province. The president's statement was a direct reply to a demand Saturday from President Jiang Zemin as the two conducted a news conference. Mr. Jiang had asked that Mr. Clinton himself enunciate the policy, either in a public

[In a strongly worded statement, Taiwan's Foreign Ministry said Washington and Beijing were "in no position to discuss issues related to us," Agence France-Presse reported from Taipei.]

Norman Fu, a Taiwan journalist traveling with Mr. Clinton, said that while the statement was a reiteration of U.S. policy, it sent shock waves through Taiwan because it was made by the president.

Mr. Fu said that as soon as the president made the statement, a senior State Department official pulled him aside and emphasized that fithis was a low-key setting" and was "a very informal way of doing it."

Europe's Bank Launched

Head of New Institution Vows to Keep Inflation Low

By William Drozdiak Washington Post Service

BERLIN - In a festive launch for what may emerge as one of the world's most powerful institutions, European leaders celebrated the birth Tuesday of the European Central Bank. It will serve as guardian of the single currency known as the euro when it comes into effect at the start of next year.

At a glittering ceremony in Frankfurt, which will serve as the bank's headquarters. Wim Duisenberg, its president, acknowledged the heavy responsibility facing the bank when it begins to set interest rates for the euro on Jan. 1.

By 2002, the national currencies of Germany, France, Italy, Austria, Spain, Portugal, Finland, Ireland, Belgium, Luxembourg and the Netherlands will

lisappear.
The bank represents an extraordinary leap of faith by the 11 countries that will inaugurate the euro. It marks the first time that countries have voluntarily surrendered control over such a precious piece of sovereignty as their own money to an independent council that does not

have to answer to any government.

Mr. Duisenberg said that the paramount priority of the fledgling central bank would be to keep inflation low and to gain the confidence of European citizens, who are nervous about giving up their marks, francs and lira for a new and untested form of money.

He said that it was vital for monetary policy to be "one and indivisible" and characterized by a truly European out-

Chancellor Helmut Kohl of Germany, who has been the driving force behind the single currency project, said the euro would have an immensely positive impact on the global financial sys-tem and the quest for European unity. Even though a majority of Germans are still dubious about the wisdom of sac-

U.S. F-16 Fires A Missile After Iraqi Radar Locks on Jets

By Brian Knowlton rnational Herald Tribune

WASHINGTON — A U.S. fighter jet fired a missile at a radar site in southern Iraq on Tuesday after the Iraqi ground radar locked on to four British fighters on a routine patrol, American and British military officials said.

It was the first time that forces of the Gulf War coalition had fired on Iraqi targets since the fall of 1996, and it came at a time of generally lessened tensions between the two sides.

American officials sought to play down the incident. Defense Secretary William Cohen said that there was no indication that Iraq had moved any of its forces "in an aggressive fashion" or placed its troops on higher alert, adding, "It could be simply an isolated ex-

None of the coalition airplanes were attacked in the incident on Tuesday. All returned to their bases unharmed, and U.S. officials said that coalition patrols over the flight-exclusion zones in Iraq would continue unaffected.

The southern flight-exclusion zone was established by the Gulf War allies in 1992, after Iraq launched new air attacks on Shiite Muslims in southern Iraq. Allied planes patrol a zone from southernmost Iraq up to the 33d parallel, just south of Baghdad. They also patrol a no-flight zone in the north to protect

Iraqi officials reacted angrily to the missile firing. In Baghdad, an official of

A Warning for U.S. Banks

Fed Seeks to Deter 'Complacency' in Lending

By Mitchell Martin International Herald Tribune

NEW YORK — Competition among banks doing business in the United States has made it increasingly easy for companies to get commercial loans, according to the Federal Reserve Board, and it is largely because of the strong American economy that the relaxed lending standards have not caused prob-

"After several years of favorable economic conditions, banks should guard against complacency," the central bank aid in a letter to examiners at regional Federal Reserve-System offices and to commercial bankers. It warned against the temptation to base expectations of a borrower's future financial performance almost exclusively on that borrower's recent performance." It added. 'Recent turmoil in several Asian countries provides a useful reminder that

The letter was dated June 23 and released to the public Tuesday. It identified three "areas for increased supervisory attention," suggesting banks should give more weight to future business prospects for commercial borrowers than to past performance; should base interest rates on the long-term risk of loans rather than setting them as a way to lure a borrower's other business to the bank, and consider the possibility of a "widespread downturn in commercial property markets" in their burgeoning

lending to real estate investment trusts. Separately, the Fed's policy-setting

arm, the Federal Open Market Comittee, was meeting Tuesday afterno-but it was not expected to vote to char. interest rates. The Fed also said that chairman, Alan Greenspan, would ma his semiannual presentation to Co gress, known as the Humphrey-Hawk:

testimony, beginning July 21.
Responding to concerns by bank and regulators, the Fed examined eral hundred loans made late last with lending done two years earlier

Mongols, Told to Use Surnames Again, Are Trying to Remember

By Thomas Crampton International Herald Tribune

KARAKORUM, Mongolia - Sipping a bowl of fermented mare's milk inside his tent on the windswept plains of central Mongolia, D. Shatar proudly tells of the traditions he will pass down

to the next generation.

Like his father and grandfather before him, he will teach his son how to care for yaks, shoot arrows, wrestle and use an uurga — the Mongolian lasso — to

capture wild horses.
"It is very important to keep our old way of life and our Mongolian iden-tity," the nomadic herdsman said. There is, however, one key item of

ancestral knowledge that Mr. Shatar months, if not years, of research ahead.

The names were banished along with to learn — his family name. After getting by on a first-name basis

for more than 60 years, Mongolians this week are supposed to start using surnames again. If only they can find out what they

In what must be one of the largest genealogical projects ever undertaken, all of Mongolia's 2.5 million citizens have been ordered to search for their

The deadline for using three names on legal documents - one's surname, given name and the father's name — is Wednesday. But the government sees

many other aspects of Mongolian culture by the Soviet-backed Communist government that came to power in 1924. The suppression of names was intended to crush allegiances that might super-

sede loyalty to the state. Along with killing monks, razing temples and banning Mongolian script, the Communists confiscated the centuries-old family trees that central Asian nomads had sewn into silk or written on

Now the course population of Mongolia uses only first names, adding the initial of their father's first name for formal occasions and on official doc-

uments. As a result, few Mongolians know their ancestral family names. In addition to destroying family ties, government officials said the suppression of surnames has led to an increased

incidence of genetic diseases due to inadvertent incest. In the years since the Soviet empire collapsed and free elections took place in 1990, Mongolians have taken great pleasure in steadily reclaiming their na-

tional identity. "Before, we had a very dangerous situation but now I have very strong feelings about using my full name and passing it on to my son, 'Mr. Shatar

Astride Past and Future / India's New-Old Economy

Helping Home-Cooked Curry Give Fast Food a Run for Its Money

By John F. Burns New York Times Service

OMBAY - Around noon on every business day, Jaganath Adav strides briskly along the sidewalk of Mahatma Gandhi Road in the heart of Bombay's business district, into the granite fortress. that serves as the head office of the Hongkong Bank in India, and rides up to the ninth floor, where currency traders in short sleeves peer over rows of blinking computers.

This is the new India, awakening in recent years from economic slumber. But Mr. Adav, 35, is a torchbearer for the old and often disparaged India, a man plying a trade little changed in 130 years.

Even his job title, tiffin-wallah, derives from British India's Victorian heyday, when English gentlemen who ruled the roost partook of tiffin, a light lunch, and had it delivered by a wallah - an Urdu word used as a suffix to

denote a function, duty or profession.

The India of the past had amen-wallahs, meaning church ministers; competition-wallahs, officials selected by examination; lemonade-wallahs, or teetotalers; lootie-wallahs, or thieves, and poultice-wallahs, meaning paramedics. Today, it still has box-wallahs, traders who carry their wares in boxes; car-wallahs, the owners or drivers of cars; press-wallahs, editors or reporters; Delhi-wallahs, residents of the capital, and so on.

In the 1990s, as in the 1890s, when the tiffin-wallahs formed their own trade union and called it the Bombay Tiffin Box Suppliers' Association, men like Mr. Aday see to it that the business people of Bombay can still have home-cooked meals personally delivered to their desks—without the inconvenience of carrying meals to work themselves on overcrowded trains - and at bargain prices. Mr. Aday is one of 5,000 tiffin-wallahs in this city (officially renamed Mumbai). delivering lunches to 150,000 people daily, at a cost of about \$3.80 a month.

The tiffin-wallah business survives in an India that has the services of American fast-food outlets and American jet-borne courier companies. But for all the old-fangledness of the system, Mr. Adav, who is illiterate, is part of an enterprise that demands levels of organization, enterprise and ingenuity, not to mention back-breaking work, and that needs to make little apology to the more up-to-date busi-

nesses that characterize the new India. From the tiffin-wallahs' perspective, neither McDonald's nor Federal Express, both making inroads in India, has

hought of anything much that is new A network of wallahs collects the tiffin boxes from customers' homes, or from women who cook lunches to order, then delivers the meals by bicycle, handcart or headsome basket to a local railroad station. There, they are sorted for different stations in central Bombay, where they

Jaganath Aday, a tiffin-wallah, or lunch deliverer, pushing his handcart through central Bombay.

are re-sorted and carried to their final destination, sometimes 70 kilometers (45 miles) from where they started. After lunch, the chain reverses, delivering the empty tiffin

At the heart of the enterprise are multicolored codes on the tiffin boxes, circular metal containers that are stacked and sealed. The codes tell the tiffin-wallahs which home the food comes from, which railroad stations must be used, who the carriers are and the destination.

Y ALL ACCOUNTS, the system is virtually failsafe, aside from train strikes or accidents, or the unreported sickness or death of a carrier. Ask a uffin-wallah when he last failed a customer, and he will scratch his head.

'Never, that I remember," Mr. Adav said. Along with the efficiency, the tiffin-wallahs offer oldfashioned values. A code of ethics hanging on the wall at their union headquarters, a bare room in a dingy walk-up,

lays down the rules. 'Please see to it that a customer never starves," says

"If for any reason successful delivery is not achieved please see to it that service resumes as soon as possible,'

says another. And, in bold face: "Every tiffin-wallah should have his customer's confidence, and remain well behaved at all

The union demands a six-month apprenticeship and new entrants must buy a route. In a lucrative area like Mahatma Gandhi Road, this can cost as much as \$20 per customer. Because most carriers deliver meals to 35 customers or more every day, buying a route entails a hefty outlay for a carrier whose monthly income will be about \$90. One same rural area outside Poona, 130 kilometers southeast of Bombay, that has monopolized the tiffin-wallah trade since it began in the 1860s.

Still, even the tiffin-wallahs say things are not what they used to be. Their business must cope with new restrictions on Bombay's overcrowded railroad system, which forbids the lunch-men to travel until past the morning rush hour. and then confines them and their panniers to special freight cars. As old tiffin-wallahs retire, men ready to step into their

shoes, working 12-hour days and carrying panniers weighing 90 kilograms (200) pounds), are becoming scarcer.

"If our children go to school and get educated, they don't want to have anything to do with this business, said Damodar Pingle, 55, who has been a tiffin-wallah for 40 years and who is also a top union official. "But if they don't study, they will take over from us.
"Either way, we tiffin-wallahs will survive, because we

need our customers, and they need us."

One such customer is Harosh Suvarma, a 35-year-old clerk at the State Bank of India, who has been eating lunches delivered by Mr. Aday to his office for 15 years. So reliable has the system been that the two men never met until a reporter brought them together. When Mr. Aday was told that the customer he knew only as 1B2-38H3-9 was Mr. Suvarma, and Mr. Suvarma learned that the quiet man in the white topi cap had kept him from going hungry for years. both seemed unimpressed.

Mr. Sovarma is in some ways part of the old India himself, spending his working days poring over ledgers in an industry frozen into Dickensian fustiness when it was nationalized by Prime Minister Indira Gandhi in the 1970s.

S HE ATE the fish, curry, rice and pickles his mother had cooked, Mr. Suvarma said he favored change at the bank, which has floundered in the more market-driven India of the 1990s. But asked whether it would not be better for him to go to

hunch at one of the fast-food outlets that have proliferated along Mahatma Gandhi Road, Mr. Suvarma dissented.

"If I go out into the street for tiffin, a little bit expensive is there, oily food is there, upset stomach is there," he

A larger conclusion was offered by a lawyer who traveled down in the elevator with Mr. Adav at the Hongkong Bank. Darshana Bogilal Gupta, 53, educated at the London School of Economics, said there were many things in India that might seem archaic to Westerners that worked perfectly well, and should not be changed in the rush to modernize.

"We're just so colonized in our minds," she said. "Why do we have to follow the West like bloody morons?'

sex addiction.

WASHINGTON - Linda Tripp, who instigated the White House sex investigation by secretly recording Monica Lewinsky's talk of an alleged affair with President Bill Clinton, finally appeared before a grand jury on

Accompanied by her son, Ryan, and daughter, Allison, Mrs. Tripp, 48, swept into the courthouse where Kenneth Starr's prosecutors are gathering evidence in the sex and perjury inquiry. She did not speak to reporters camped at the entrance.

She smiled in response to a shouted question about whether she was nervous about being called to the witness stand after months in seclusion at her suburban Maryland home.

White House officials shrugged off the potential turning point that Mrs. Tripp's testimony represented in the independent counsel's five-month-old inquiry. "We'll let the American people draw their own conclusions about Linda Tripp," said

cause she was collecting material for am so anxious to go before the grand a book and betrayed the unsuspecting jury and tell the truth," Mrs. Tripp young woman to damage Mr. Clin-

decision to call his key witness could mean he was close to completing his investigation and that it might be a warning to Ms. Lewinsky that time was running out for her to cooperate

with his inquiry.

What Mrs. Tripp tells the grand jury about alleged sex between Mr. Clinton and Ms. Lewinsky is merely hearsay, and as such is of questionable value, experts said.

■ Manipulation Denied

Susan Schmidt of The Washington

Mrs. Tripp said in an interview that she was eager to dispel charges that she manipulated an unwitting Ms.

Lewinsky to entrap Mr. Clinton. She said she had been unfairly vilified in the five months since she went to Mr. Starr with the tapes. "I

Her critics say that she betrayed Legal experts said that Mr. Starr's her young colleague and insinuate cision to call his key witness could that she won Ms. Lewinsky's friendship in a cynical effort to use her confidences against the president. Not so, Mrs. Tripp said. "I did not

cultivate Monica — she cultivated me," she said. "Monica is a very worldly person. She educated me." In a 20-minute phone interview Sunday, her first since the investigation began, Mrs. Tripp said she has watched in horror at her public por-

She refused to discuss Mr. Starr's investigation, her taped conversations or the grand jury testimony that

she was preparing to give.

Many people have called Mrs.

Tripp the villain in this saga. Internet chat lines are filled with angry comments about her and polls show that only one in 10 Americans views her

Fierce U.S. Storms Leave Devastation

By Pam Belluck

Nancy Wheeler was home in her trailer by a trickle of a creek in Elkview, West Virginia, when the weather hit.

stream and then busted apart.'

But the storm that savaged the middle and eastern parts of the United States over the weekend and on Monday had worse in store for Ms. Wheeler, 50, who has lived her entire life in this small town just northwest of Charleston. As she rushed over to the trailer where her son and daughter-in-law lived, the predatory current swept the couple's four-month-old son out of his mother's arms. The baby, Dakota Chyan Taylor, still has not been found and is presumed dead.

'It was up over my neck and I went under twice, and I was

A maelstrom of wet and violent weather has lashed across the Midwest, Northeast and Appalachian states in the last few days, leaving at least 23 dead or missing. Floods wrought devastation from Wisconsin to West Virginia, Indiana to Vermont. A tornado and heavy rains battered Ohio. And lightning strikes over the weekend killed a Maryland girt, a camper in upstate New York and a 56-year-old farmer in Meire Grove, Minnesota, who had been turning over matted hay with a pitchfork.

Gore was visiting areas affected by drought-induced wildfires that have charred 237,000 acres (94,800 hectares) since Memorial Day, and more rain is predicted in coming days. But officials said that it probably would not be enough to offset the danger of further fires.

portation and emergency management teams were searching for the missing, clearing out fallen trees and houses, and trying to restore electricity and water to tens of thousands of people. "It was a real toad-choker of a storm," said D.R. Smith, the etvices director in wood County, west virginia near the Ohio border, where about two dozen homes remained completely surrounded by water Monday. "It rained pretty

near Parkersburg on Sunday, and they floated away with about 80 people inside them, the director said. The volunteer fire department chased after them on boats and jet skis, plucking

The greatest death toll from the storms so far has been in Ohio, with 11 people killed by floods or tornadoes. On Monday, Governor George Voinovich increased to 24 the number of central and southeastern Ohio counties placed under a state of emergency. Weather conditions were so bad that the governor could not even visit some of the damaged areas.

Fallows Is Dismissed As Editor of U.S. News

WASHINGTON - James Fallows, the media critic and magazine writer who was elevated to editor of U.S. News &

World Report, has been dismissed after 22 months. Stephen Smith, a former editor at Newsweek, Time and Knight-Ridder, who now runs National Journal, has been chosen as Mr. Fallows's successor, according to a source. In a meeting Monday that prompted some tears among

staffers, Mr. Fallows attributed his removal to his disagree ments with the owner, Mortimer Zuckerman. These included Mr. Zuckerman's cutting of the magazine's editorial budget and his pushing for more rehashing of the previous week's news, Mr. Fallows said.

And there were other clashes: Three staffers say Mr. Fallows resisted Mr. Zuckerman's attempt to have a piece on Hispanic culture assigned to the celebrity socialite Bianca Jagger, whom Mr. Zuckerman once dated.

Harold Evans, the former Random House president who is now Mr. Zuckerman's editorial director, insisted that he made the decision to replace Mr. Fallows, although he said Mr. Zuckerman was "supportive."

Much of the staff blamed Mr. Zuckerman, however.

U.S. News ranks third behind Time and Newsweek in circulation among American newsmagazines.

French Academy's Linguistic Guardians Are Choking on Feminized Titles

By Craig R. Whitney
New York Times Service

PARIS - You say "Madame le ministre," I say "Madame la ministre," the French government decreed Monday.
Let's call the whole thing off, thundered the Académie Française on

Tuesday.
"Academy" has feminine gender in French, but the French Academy, a male bastion founded by Cardinal Richelien in 1635, is positively beside itself about such proposals as making ministre, a masculine noun in French, feminine when the minister in question happens to be a woman.

That is one of the things the Socialistled government has proposed doing to recognize the increasingly visible role that women play in French life.

But that would require bending the rules of French grammar that all nouns are either masculine or feminine — rules that are jealously watched over by the guardians of linguistic orthodoxy, 'immortals" of the Académie Fran-

Only 2 of the 39 current members of the academy are women, and the group's Perpetual Secretary, Maurice Druon, whose tongue is as formidable as his white mane and his walking stick, left little doubt where he stood in an interview Tuesday with Le Figaro, the conservative daily newspaper.

'Socialist ideology is making France go to pot, and the French language with it," Mr. Druon said.

The academy in charge of this language will meet this week to see if it is possible to appeal to the Council of State or the Constitutional Council," he went on, "because the appropriation of a post by the person exercising it is contrary to the principles of equality

contained in the Constitution." Ministers come and ministers go, but ministre will always be masculine if Mr. Druon and his ilk have their way.

Since they often heap ridicule on what the "politically correct" movement in America does to the English language and fiercely defend French against all English or American linguistic inroads, they seem doubly determined never to let it happen here.

Rallying to the cause, another immortal. Jean Dutourd, delivered himself of a sentence that it is safe to say no American male chauvinist, however hardboiled, would ever let traverse his lips these days, accusing Prime Minister onel Jospin of linguistic travesty.

"These are the results of polygamy by Jospin, who has surrounded himself with sultanesses and, to please his har-em, has resurfaced an old idea," Mr. Dutourd said. Indeed, Mr. Jospin has five women ministers in his cabinet, and he explained to them and their nine male colleagues four months ago that one of his predecessors, Laurent Fabius, tried in 1986 to feminize titles and job descriptions where appropriate, but to

Mr. Jospin vowed to do better, ap-pointing a commission to study the problem and vowing to start right

away.
"Even Jacques Chirac now calls me
"Madame ta ministre," said Dominique Voynet, the environment minister, recently, referring to the 65-yearold conservative politician who is Mon-sieur le Président de la République. "Older people resist, but you can un-derstand that," Mrs. Voynet, a scientist by training, said tolerantly.

Bravely, two of her colleagues, Clande Allègre, the (masculine) minister of education, research and teck-

ments on Tuesday, explaining how to feminize grammatically masculine titles or professions.

An assistant of feminine gender becomes une assistante, a word already commonly used in a society where 11.5 million of the 26 million people in the labor force are women.

But in the professions, where inteation of the sexes has progressed more slowly, an architect who is a woman can now, at least in academic circles, becalled une architecte.

The circular gives its blessing to calling a supervisor une chef de service if she is a woman, though chef is grammatically masculine; and a doctor who is female becomes une médecin.

Ferninizing the noun to make it une médicine would turn the doctor into a

nology, and Ségolène Royal, his (fem-inine) deputy, circulated a memorandum to educational establish perfectly well be une magasinière, a perfectly well be une magasinière, a laboratory technician une technicienne

Protestants In Ulster Insist They'll Parade **Past Catholics**

Complied by Otal Staff From Disparters

BELFAST - Leaders of Northern Ireland's major Protestant brotherhood said Tuesday that they would stand their ground "for 365 days if necessary" to win the right to march past a hostile Roman Catholic neighborhood.

Opposition to the annual Orange Order march in Portadown, 30 miles (50 kilometers) southwest of Belfast, has triggered violence for the last two sum-

Many fear that this time the conflict will undermine April's peace agreement, which is designed to create a new compromise government for Northern

Its main pillar, a 108-seat Legislative Assembly of Catholic and Protestant politicians, convenes Wednesday with many antagonists in the Portadown dispute sitting on opposite sides of the

On Monday a government-appointed Parades Commission ordered that Portadown's approximately 2,000 Orangemen not take their usual route down Garvaghy Road, Portadown's main Catholic district, back into town from their annual service at the rural Drumcree Anglican church.

Police and soldiers will block Orangemen outside the church if they do

"Portadown District are prepared to stand at Drumcree for 365 days if necessary for the principle and the right to walk along the Garvaghy Road back an Assembly member and the senior Orange official in Portadown's county

In Frankfurt, meanwhile, Prime Ministers Tony Blair of Britain and Bertie Ahern of Ireland called on Protestant and Catholic leaders to find a compromise to allow a Protestant Orange Order Lodge parade to pass without violence. In previous years the Portadown area march has been the catalyst for riots across the province.

We had a chance to look at the postelection situation and see how we move on," Mr. Ahern told reporters after a 20minute meeting with Mr. Blair on the fringe of the inauguration ceremony of the European Union's Central Bank in

"It's our hope we get through the marching season without trouble and find some way to deal with it," Mr. Ahem said.

"There can only be winners if there is compromise," he said. "People who are brave are people who can find compromise i

Mr. Ahern said he and Mr. Blair would do all they could to see the planned season of parades through peacefully. "Tony Blair and myself will not give

in," he said. "There is no easy revolution and there never has been an easy revolution. If there is not give anywhere, there is a risk of problems on Sunday and, God knows, anywhere

In London, a Blair spokesman said: "On Drumcree they agreed that everyone in positions of responsibility must do all they can to ensure the weekend passes off peacefully." (AP, Reuters)

That Bloke on the Tube Looks Familiar

LONDON - Members of the British royal family are using senior citizen rail passes as part of a drive to cut travel costs, Buckingham Palace said Tuesday.

The 72-year-old Queen Elizabeth II does not claim concessions for the elderly, the palace report said - although she did take a regular train to visit her 97-year-old mother in a hospital. The queen's husband, Prince Phili

77, used his Old Age Pensioner's Pass to travel at the cheap rate on a trip from London to Cambridge, and her sister, Margaret, 67, used her pass when she opened a youth club in Brighton.

They saved the palace and the public £56 (\$92) between them. But their economies contributed toward a £2 million saving on royal travel, the palace said. The royal travel budget for the year to

the end of March was £19.4 million, while £17.3 million was spent. The palace has been striving to make

economies in response to public criticism of the royal lifestyle after the death

of Diana, princess of Wales, last year. The royal family pledged then to get more in touch with the British people and traveling among them could be seen as a way to do this.

In addition to the senior citizen rates, much larger savings were made by using Royal Air Force aircraft less frequently and relying more on scheduled or charter flights.

royal train in the sidings more of the time: The budget of the train was cut from £1,85 million to £1,15 million.

But it still cost taxpayers £11,843 to take the queen by royal train to watch the English Derby, the highlight of the horse racing season, at Epsom in May. A round-trip ticket by scheduled service would have cost £4.10.

Travel costs relating to Diana's funeral were covered by insurance policies and recouped, Buckingham The Prince of Wales's flight by Royal

Squadron jet from Aberdeen to Paris

Iran Says Prodi's Visit Signals Thaw With EU

and back on Aug. 31 to accompany the princess's coffin was similarly covered by insurance and reclaimed on behalf of the public purse.

The cost was not disclosed. The royals have already lost the services of the yacht Britannia and have saved money by using a new, cheaperto-run helicopter. "This has been a very successful first

year for the new royal travel grant-in-aid arrangements," said Sir Michael Peat, keeper of the Privy Purse. "These are savings in terms of mak-

ing money work harder rather than cutting back on standards and quality. 'Substantial savings have been

achieved without compromising the standard of the service provided for some 3,000 engagements carried out by the royal family last year," he added.

Another report made public Tuesday on the costs of keeping up the royal palaces showed savings of £3.2 million last year, a reduction of 43 percent since (AP, Reuters)

Internet Terminology Conquering Youth

By Mary Williams Walsh Los Angeles Times Service

REYKJAVIK, Iceland - You think the Justice Department has it in for Bill Gates and the marketers of Microsoft? Try an earful from the Icelandic Lan-

guage Institute.

"They are nothing less than destroying what has been built up here for ages," says the institute's director, Ari

Iceland, you must first understand, is a tough, proud, island nation with language-preservation instincts that put the Academie Francaise to shame. Icelandic may be spoken by fewer

than half a million people worldwide, but you should never mistake it for a beleaguered minority tongue. On the contrary: Up until now, ice-land could boast a minority-language success story nearly unique in the world. The French may be fighting a losing

battle with such creeping barbarisms as "le hot dog." Germany may have suc-cumbed to "das Midlifecrisis." But centuries of Icelandic isolation and vigilance have preserved a national grammar, vocabulary and spelling that are virtually identical to what the Nor-

wegian Vikings spoke when they settled this land in the ninth century. Startling though it may sound to an American who has struggled with the Middle English of Chaucer, any Olof

Sixpack here can curl up with a Saga — written a good century before "The Canterbury Tales" - and understand every word.

Today, however, Iceland's linguistic patriots say Mr. Gates stands poised to lay waste to all they hold dear. The reason, they say, has everything to do with the shamanistic powers that computers seem to exercise over the minds

strategies of far-away Microsoft. Microsoft's sin: It refuses to translate Windows into Icelandic

A Microsoft spokeswoman, Erin Brewer, notes that while the company has translated the popular program into "at least 30 languages," including such rarities as Slovenian and Catalan, it won't be doing it in Icelandic.

"We are not localizing Windows 98 into Icelandic due to the size of the market," she said.

Thus, Iceland's unique linguistic sucdefending the purity of their ancestral

language, Microsoft sees no point in translating Windows into their proud

most powerful company in the world, and it can decide which way the com-

policy if the computer talks to you in

their geosynchronous satellite position-

You can say everything in Iceland-You don't need English to express

there's no way they would call these

global concepts, Iceland has neatly avoided the costly language battles now plaguing other countries in the instant-

Communication age.

Until recently, Mr. Kristinsson, the
Language Institute director, was the
toast of the international linguistics crowd, holding his head high at pro-fessional meetings haunted by doleful Quebecers, militant Basques and worried Russian delegates seeking ways of defusing the next language-based conflagration on their territory.

But now comes Windows. Iceland can't avoid computers. On the contrary, because it is in the middle of the North Atlantic, far from any continent, it needs e-mail and the Internet just to function in modern times.

Iceland has worked hard to promote a computer-literate society, starting children early on computers in the schools.

BRIEFLY

Women Backed In EU Court Test

LUXEMBOURG - The European Union's highest court ruled Tuesday that employers may not fire women from work even after sences que related illnesses.

The Luxembourg-based European Court of Justice said that coutracts giving employers the right to dismiss workers after a stimulated length of absence could not apply in cases of pregnancy.
"Dismissal of women during

pregnancy for absences due to incapacity for work can only affect women and therefore constitutes direct discrimination on the basis of

sex," the court said.

The court was responding to a request from Britain's House of Lords, which wanted a European ruling on the case of a British worker. Any damages will be decided by a British court

Polish Missile Fired **Near Tourist Ship**

WARSAW - A Polish military aircraft on exercises fired a live missile near a Baltic Sea excursion vessel carrying children over the weekend, a Defense Ministry spokesman said Tuesday.

There was indeed an incident that caused a certain danger, al-though the pilot realized in time that something wasn't right and halted his activities," the spokesman, Eugeniusz Mleczak, said. He said the vessel strayed into a military closed zone where pilots were firing at floating targets. (Reuters)

3 Are Sentenced In IRA Bomb Case

PARIS - A French court gave two Frenchmen and an Irishman light prison sentences on Tuesday on charges of hiding and helping an Irish Republican Army squad that was preparing bomb attacks in Bri-

tain two years ago.

The three men were released because their time already spent in pre-trial detention exceeded the length of the sentences. (Reuters)

Cypriots Debating Immigrants' Future

NICOSIA — Cypriot authorities Tuesday debated the future of more than 100 African and Arab immigrants rescued after an 11-day ordeal at sea, during which two died

of thirst.
The immigrants were found half-starved and crammed on a small fishing boat. Sources said Cypriot officials probably will ask neighboring countries to take the im-(Reuters)

New Philippine Leader Takes Oath

Estrada Says Asian Economic Woes Will Force 'Tightening of Belts'

MANILA - Joseph Estrada on Tuesday took the oath of office to become the 13th president of the Philippines and declared war on white-collar crime and the bloated bureaucracy.

The 61-year-old president, who won a landslide election May 11 campaigning as a man of the people, takes over as head of state as the Philippines confronts an economic crisis that threatens to reverse efforts to reduce poverty.

Gloria Arroyo, 51, was sworn in as vice-president just before Mr. Estrada, who is known by the nickname Erap, took the oath at the Barasoain Roman Catholic church, north of Manila.

To the marginalized and the poor, here is the promise of Erap: You will be the first to share from the benefits of the economy and the government," he said in his inaugural address at a Manila

But he also cautioned against high expectations, saying the population had to "tighten our belts" because of the financial crisis that is buffeting

"I want to bring peace to our lives and harmony to our society," he said. "I want to bring order to our streets and justice to our institutions. I want to impart energy to our economy and more equitableness in the distribution of its

Mr. Estrada named himself interior secretary and declared war on "ecocrooks in government. I ask the rich to take a share of the

sacrifices commensurate to their strength," he said. "None of us can "I feel that the common people have waited long enough for their day to come. That day is here," he added, "it is

now the turn of the masses to experience liberation. The crowd, estimated by police to number in the hundreds of thousands, repeatedly burst into cheers, chanting his "Erap," or "pal"

About a third of the population lives below the poverty line and only a frac-tion of the population of 70 million could consider itself middle class.

But Mr. Estrada, who is a college dropout, was quick to say he did not want to discourage businessmen, who during the election campaign were openly skep-tical of his ability to rule, especially as the country struggles to recover from the financial crisis.

and fight crime.

He has also impressed them by picking what is generally seen as a professional cabinet.

Mr. Estrada reiterated his plan to take power away from legislators to allocate

nomic saboteurs in business suits" and state funds to their pet projects, which he contends as a key source of graft. But in a more conciliatory tone, he conceded that he had been wrong to approve the burial at a national heroes'

There was widespread opposition to the decision, including from Mr. Es-trada's predecessors, Corazon Aquino and Fidel Ramos.

cemetery for the dictator Ferdinand

Acknowledging the public reaction, he said "there is a need for a longer time to pass to allow the wounds of some and e wounds of the nation to heal.'

With the country celebrating the 100th anniversary of its declaration of independence, Mr. Estrada turned the inauguration into a repeat of the same ceremony a century ago for the revolutionary general, Emilio Aguinaldo, the first president of the Philippine Republic.

The Bible, as well as the pen he used to sign his oath, were also used by General Aguinaldo.

He intentionally did not invite foreign

On the Air Live, Clinton Amazes Chinese Callers

By John Pomfret Washington Post Service

SHANGHAI — Yu Fang spent lunchtime Tuesday in the Happy Earth Fruit Shop hawking mangoes and furiously dialing his telephone.

The 33-year-old fruitmonger was trying to get through to the leader of the world's sole superpower.

"I have a question for Kelindun," he said, using President Bill Clinton's Chinese name as he pressed the redial button again and again on the wobbly red phone in his store

"I want to know what he thinks about inter-racial marriages, about love be-tween China and the USA."

Sadly for Mr. Yu, he never got through. But a dozen other questioners did as Mr. Clinton took his charm offensive onto China's airwaves - appearing live on a popular radio talk show in this bustling metropolis.

The appearance marked the third time in four days that the American president has been broadcast live on China's elec-

The Chinese, it appears, are eating it up. For a nation accustomed to aged and distant leaders, locked away in guest houses and remote compounds, guarded by dour soldiers, cruising in black sedans, Mr. Clinton's popular touch has been a hit with many people here.

His willingness to answer personal questions - from how he likes to exercise these days to what he plans to do when he leaves office - have befuddled and amazed the Chinese.

His apparent spontaneity and human touch are something that are rare as well in a country that has for centuries attempted to turn its leaders into gods.

"We're just not used to thinking of our leaders as people," said Ma Xiebin, an accountant. "We could never ask those questions of Jiang Zemin."

"Hi, my name is Li. Here's the question I want to ask," said one man who got through to the show "Citizens and

Society."
"We noticed that you've been involved in a lot of activities and you seem to be very healthy, and you seem to have

a nice figure, Mr. President." "Which sports do you like to play, was the question. Mr. Clinton said he used to play bas-

ketball in college and jog. But last year, he hurt his leg during a fall at the house of the golfer Greg Norman. Since then, he said, it's been Stairmaster.

"And I play golf. I like golf very much. It's my favorite sport," he said. Other questions revolved around the Southeast Asian financial crisis, attempts by the United States to improve relations with Iran, Americans unfamiliarity with foreign lands and Mr. Clinton's predictions about the World Cup in

said, adding that he hopes his father can still recall the family name.

So few people are ready for the change to last names that the government has opted for a phased introduction of the names rule over the next year, said Ts. Tsedev, head of Mongolia's Civil Registration and Information agency.

Mr. Tsedev has been leading a cam-

paign on national television to assist the recovery of names.

"Older generations often remember family names, so I encourage people to go back to their parents or grandparents," said Mr. Tsedev, who first learned his family name seven years ago and has been obsessed with genealogy ever since.

In his spare time Mr. Tsedev has helped compile what he calls the world's most complete list of Mongolian names.

He hopes the list of 1,300 names, organized by region, will help jog faded memories. "People can look for the village where their family came from, see the names and maybe remember what they were called," he said. Those or don't want to be bothered, can adopt any name they choose.

Tsedev said relatives of the country's cosmonaut were certain to prefer the name "Gurragchaa."

"I am sure they will be so happy to

Police Fire On Indonesian Workers

Garuda steel plant were unaware of the

order. Company officials could not be

reached immediately for comment on

The Associated Press JAKARTA - Police units and solthers, firing rubber bullets, wounded dozens of steel plant workers on Tuesday as thousands staged a violent protest to support their demands for better pay and welfare programs.

"We had to fire rubber bullets because they attacked us with rocks and concrete blocks," said an officer at a military post in Bekasi, just east of Jakarta. They even wanted to burn a movie house across from the factory."

The state-run TVRI television station reported that 104 people had been arrested for interrogation and that at least 26 workers were injured.

Meanwhile, the government an-nounced an average 15 percent increase in regional minimum wages, putting the monthly salaries between 130,000 and 198,500 rupiah (\$8.60 and \$13,20).

pay and working conditions. But the military officer said all 2,100 employees of the plant went on a rampage to protest low salaries and adverse conditions.

A number of security personnel were injured, including three who were treated at a hospital, the officer added. It was the second consecutive day of protests by the workers.

Also on Tuesday, about 2,000 workers of P. T. Tyfoniez, a textile company in the central Java town of Sukoharjo, 520 kilometers (325 miles) east of Jakarta, carried out a similar protest. They demanded higher salaries and

better social assistance programs, the police said. One officer said the workers planned

President B. J. Habibie expelled 41 members of the People's Consultative Assembly on Tuesday.

The move was described by the Assembly's deputy chairman as a purge to rid the body of corruption, Agence France-Presse reported from Jakarta. The 41 ejected from the country's

highest legislative body included several close business associates of former President Suharto. Others were former ministers, busi-

nessmen, and wives and daughters of former and serving officials. 'The measure is designed to clean the MPR of nepotism, corruption and collusion," said the party's deputy

chairman, Abdul Gafur of the governing Golkar party, using the initials for the name of the Assembly in the Bahasa Indonesia language. Mr. Gafur said President Habibie had

ordered the expulsions through a presidential decree, and had already named replacements, who are to be swom in on

four of Mr. Suharto's children — Hutomo (Tommy) Mandala Putra, Siti (Tutut) Hardianti Rukmani, Siti Hediati Prabowo and Bambang Trihatmodjo. Mr. Bambang's wife is an Assembly member.

Prominent among those dropped were a timber tycoon and Mr. Suharto's golfing partner, Muhammad (Bob) Hassan; a former information minister, Hartono; a former finance minister. Fuad Bawazier, and Anthony Salim, son of a

anto, who had earlier said she would voluntarily resign, was also dismissed.

Also expelled by the decree was the Indonesian ambassador to the United

Glitches Snarl Malaysia's New Airport

A security officer at Malaysia's new airport confiscating a toy gun from a passenger on Tuesday.

"Everyone understands it's a new airport and that there might be some problems," added Mr. Tiedt's wife, Jeanette, 41. "But not one single person has come here to tell us what has happened.'

Tuesday marked the first full day of operations at the Kuala Lumpur International Airport, a \$3 billion project that was spearheaded by Malaysia's prime minister, Mahathir bin Mohamad.

The airport, which will eventually feature hiking trails in the adjoining jungle and a Formula One motorcycle went blank and arriving passengers who circuit, is the first of two East Asian airports to open this week. Hong Kong's Chek Lap Kok will be inaugurated by President Jiang Zemin of China and President Bill Clinton of the United faced with a taxi line of several hundred people, as the cab company given a monopoly at the airport failed to keep up States on Thursday.

Despite the delays, passengers said they liked the new airport's design — its lofty wood-paneled ceiling and marble

'It's impressive," said Reese Hamson, 48, an Australian whose surfboards were several hours late in arriving at the baggage area. "Much better than the old

Airport officials spent most of Monday night transporting equipment from the old airport — a 1960s-era structure built to handle 400,000 passengers but which last year handled 16 million - to

pur said that although they disliked using the old airport, they would miss its

proximity to the city.

The new airport is about 75 kilometers (46 miles) from central Kuala Lumpur, three times as far as the old and at least four times as expensive by taxi. A one-way fare is about 80 ringgit (\$20).
"I think that will affect lower-income

people," said Sharkawi Bohari, a businessman from East Malaysia, who waited for his bags in a darkened arrival hall where overhead lights had inexplicably switched off. The airport's chief, Mr. Khairuddin,

said the issue of distance would soon be forgotten. "People get used to the distance. If it was near the city center it would be an issue.'

The airport, which is linked to central Kuala Lumpur by a six-to-eight-lane highway, is just under an hour away by taxi, not counting traffic jams. The issue is irrelevant for transit pas-

sengers at the new airport. It is these travelers that Malaysia hopes to lure away from such other hubs in the region Singapore, Hong Kong and Bangkok.

Mr. Khairuddin said that Kuala Lumpur would compete on the basis of landing fees, which he said would not change from those charged at the old

It's a far cry from Hong Kong." he said. "In terms of rates, we are quite

The workers at the P.T. Gunung to march to the nearby city of Solo. A Step For Timor Freedom But Separatist Rejects Parts of Jakarta's Offer

By Barbara Crossette New York Times Service

UNITED NATIONS, New York -The East Timorese independence leader, Jose Ramos-Horta, says he would accept an offer of limited autonomy within Indonesia now and a five-year delay on a referendum on the territory's permanent status. But he would not agree to a recognition of Indonesian

sovereignty in the meantime. Speaking at a news conference here Monday, Mr. Rathos-Horta recommended that the question of who owns East Timor, which Portugal abandoned and Indonesia seized in 1975, be frozen while changes in the territory take

"It is progress on the ground that would be beneficial to the people of East Timor and beneficial to the Indonesians," he said, responding to proposals made on June 10 by President B.J.

Mr. Ramos-Horra defined that progress as a reduction of Indonesian troops in East Timor and the release of all political prisoners, including Jose Xanana Gusmao, a guerrilla leader who has served five years of a 20-year sentence. Mr. Ramos-Horta had earlier seemed

to rule out any compromise, even in the short term, and he remains committed to East Timorese independence. Mr. Habibie has already said that independence is not possible, and has linked even limited autonomy to an international recognition of Indonesian sovereignty over East Timor, which has been denied

Under President Suharto, who resigned in May after more than 30 years in power, a special administrative status for East Timor's 800,000 people had not even been considered, and Mr. Ramos-Horta said he welcomed Mr. Habibie's gestures.

The new president also recently met Bishop Carlos Ximenes Belo of East Timor, with whom Mr. Ramos-Horta, who lives in exile in Australia, shared the 1996 Nobel Peace Prize.

Mr. Ransos-Horta cited changes in both Indonesia and South Korea, where the longtime dissident and opposition leader Kim Dae Jung assumed the presidency this year.

In this atmosphere, Mr. Ramos-Horta said, there is room for compromise if Indonesia does not insist on conditions.

■ Envoys Cut Short Dili Visit

Three European Union ambassadors on Tuesday cut short an East Timor trip marred by violence, Agence France Presse reported.

Protocol officials in Dili said the decision was prompted by an incident Monday in which Indonesian intelligence agents accompanying the dipiomats opened fire on a crowd, killing one man and wounding five.

The British ambassador, Robin Christopher, who led the delegation, said the EU regretted the "tragic events of the past few days" and said the situation called for urgent solution.

Candor About China

Bill Clinton's White House courtiers in Beijing lost no time in spinning his China trip for the home audience. Like paid movie reviewers, his national security adviser and secretary of state pronounced President Clinton's trip thus far, and in particular his joint news conference with President Jiang Zemin, remarkable, "extraordinary" and "stunning" in its impact. They even supplied their own unveri-fiable, and almost certainly inflated, viewership estimates. We have moved the relationship into a qualitatively and quantitatively different direction," said Secretary of State Madeleine Albright.

There are two problems with this kind of show-biz hype when applied to global diplomacy. The first is that Mr. Clinton's remarks at the joint news conference and in his Beijing University speech were good enough to stand on their own.

Mr. Clinton had to walk a line between pulling his punches, on the one hand, and being patronizing or hec-toring, on the other, he walked it pretty well. He spoke out politely but forthrightly on Tiananmen, Tibet, political prisoners and more. He articulated broad principles of democracy, and he offered concrete suggestions to improve China's human rights record in incremental ways. China's praiseworthy decision to televise his remarks undoubtedly amplified Mr. Clinton's

message in unpredictable ways The brief summit meeting produced no commensurate agreements of substance, at least as reported thus far. In itself, there is nothing wrong with that. The U.S. president should meet with other world leaders regularly, without the pressure of having to produce major new agreements. Coming home more or less empty-handed is certainly preferable to sacrificing U.S. interests just for the sake of getting a deal.

But it is important to remember why there was no substantive progress in areas that, six months ago, were men-tioned as potential fields for accomplishment: China and the United States continue to view the world very differently. On trade, there was little progress because China, while enjoying full access to the U.S. market, does not want to open its own — a situation leading to mounting trade deficits, and one that is not sustainable politically in the long run. On nonproliferation, China refused again to join the major global treaty on missile control, presumably because it is not sure it wants to restrict its missile sales to Iran, Pakistan and elsewhere.

And on human rights, far from making concessions. China stoutly defended its repressive system and continued, right up through Monday, to round up dissidents in conjunction

with Mr. Clinton's trip. So the summitteers praised China, once again, for promising, once again, to sign — not ratify, mind you — a major treaty on human rights. They pretended that a symbolic agreement to retarget missiles had serious implications for stability. But these exercises in joint make-believe — and this is the second danger - can force the administration over time to make concessions to make the rhetoric come true. Already the claims of new friendship have caused extreme nervousness in Japan, Taiwan, India and other surrounding democracies with which the United States really does share values and really should be strengthening its

partnership. Mr. Clinton spoke candidly to the Chinese about human rights. His administration should speak just as candidly to Americans about what has, and has not, been accomplished in the U.S.-

Chinese relationship.

— THE WASHINGTON POST.

Northern Irish Flux

The week ahead contains two important events in Northern Ireland. This Wednesday the region's new assembly meets for the first time, and Sunday marks the date of the most explosive of the yearly parades. In both cases, a small group of determined opponents can thwart the desire for peace expressed by the great majority of voters.

The parades, celebrating Protestant victories of 300 years ago, are an annual source of tension. This year the British government took the smart step of forming a bipartisan commission to rule on the routes marchers may take. On Monday the commission decided that the Orange Order may not take its Drumcree march through the Catholic Garvaghy Road in Portadown. The Orange Order has refused to comply. Catholic residents, equally intransigent,

yow to greet the march with a protest. The Royal Ulster Constabulary must uphold the parade commission's without the heavy use of plastic bullets and other violent measures. Britain has risely sent reinforcements, in the form of 1,000 soldiers. But the best solution would be a compromise between local Gatholics and Protestants.

While the parade season looks dishearteningly familiar, the opening of the new assembly shows that things are changing in Northern Ireland. The 108 members elected last week meet on Wednesday for the first time. The assembly can work only if politicians

break out of their sectarian thinking. Members will choose a first minister, who is expected to be David Trimble, leader of the Protestant Ulster Unionist Party. His deputy is likely to be John Hume, head of the largely Catholic Social Democratic and Labor Party. Mr. Trimble will find himself governing a body and heading a cabinet that in-cludes Sinn Fein. the political wing of the Irish Republican Army. He still does not speak to its members. But he is now Sinn Fein's ally in making the assembly work, against the hard-line Protestants whose views he once shared. That journey took courage and vision.

The hard-liners oppose the peace agreement, especially because the assembly will get no powers until a body linking its members with Irish legislators is in place. They have nearly enough members to sabotage the assembly on key votes, so a few defections from Mr. Trimble's party would be tatal. That threat makes him very vulnerable to pressure from the small anti-accord group.

Sinn Fein's president, Gerry Adams, like Mr. Trimble, faces a paradox. He badly needs to prevent those Ulster Unionists from defecting. He could help by joining Mr. Trimble in pressing the IRA to begin giving up its arms. The idea of cross-community alliances is startling and strange for Northern Ire-land. When they happen, we will know that the peace process is working.

About Teenage Pregnancy

To start to really understand the problem of adolescent pregnancy in America, we have to recognize it as an adult problem. The causes that lead to teen pregnancy are adult-driven, and it is adults who are going to have to solve the problems.

I mean, look what kind of role models we are. Two-thirds of the mothers who have babies out of wedlock are adult women - not teens. Sixty percent of women aged 20 to 24 have unplanned pregnancies. Seventy-seven percent of women over 40 say their pregnancies are unplanned. And twothirds of the fathers of babies born to teen mothers are adult men.

Instead of asking why teens behave so differently and immorally, we should be asking, "How come they are behaving so much like the adults that

Eighty percent of teen mothers who give birth were living in or near poverty long before they became pregnant. You know, it used to be that America's elderly were the poor, now it's our children.

Our child poverty rate has gone up 26 percent between the 1970s and 1996. We have the highest rate of child poverty of any industrialized nation in

It doesn't mean that all children who are poor have babies. If they have a parent or parents in the home who stress the importance of education, and teach those children that they can grow up to be somebody, the children are going to be on an upward trajectory. And the tendency to engage in all risk behaviors, including adolescent pregnancy, is going to be much lower.

– June Fonda, speaking lust Wednesday at a National Press Club luncheon in Washington.

A Mideast Lull Without a Breakthrough in Sight

JERUSALEM — Two months after Madeleine Albright laid down an ultimatum to Israel to decide on a further redeployment from the West Bank, or else, neither the decision nor

the "or else" has appeared. Interviewing Prime Minister Ben-jamin Netanyahu, I was left with the impression that he is ready to do a deal provided he can get from the Palestinians all the political and security concessions he feels he needs to in-sulate himself from the crazies in his coalition who oppose any accord. (Polls show 63 percent of Israelis favoring the

withdrawal, so the public is ready.) But no deal is going to give Mr. Netanyahu, or Yasser Arafat, everything he wants. If in the end the deal on the table satisfies Israel's basic security needs, but does not satisfy every political need, will Mr. Netanyahu risk his coalition to push it through, or risk the peace? No one here knows

I believe he will do this deal, but only when he feels he has no other choice. What is unusual about today is that there is a temporary equilibrium of By Thomas L. Friedman

forces that is making it difficult for any party to force that choice.

The United States: Henry Kissinger was ready to twist Golda Meir's arm to accept the 1973 disengagement accords, and in the early 1990s James Baker was ready to twist Yitzhak Shamir's arm to accept the Madrid peace conference. Clear-cut, overarching U.S. strategic interests were at stake - a global struggle with the Soviet Union and a global struggle with Iraq.

Today there are still some U.S. interests in the peace process. But the Clinton team, because it has not articulated any coherent post-Cold War strategic framework, cannot convincingly link any particular regional conflict with U.S. national security, and so cannot counter domestic pressures to do nothing. Without a strategic logic, the Americans look like naive do-gooders trying to break up a street brawl.

Israel: The Israeli economy today is O.K., there has been no serious Palthe Labor Party opposition has all but Palestinian "street," because he could collapsed, so for the Israeli public there lose control. He also does not want to collapsed, so for the Israeli public there-

is no urgency to make a decision. Sure, every week some senior Israeli political figure denounces Mr. Netanyahu as a liar and manipulator. President Ezer Weizman did it last week, and on Monday even called for new elections. But it has no effect. It seems that some part of Israelis likes the idea that Bibi is such a bad boy. Better, they say, to have an Israeli bad boy deal with the bandits on the Arab side.

Jordan: King Hussein, who has more influence with the Israeli public than any other Arab leader, complains privately about Mr. Netanyahu but won't break with him. The king is worried about triggering an explosion that will scare away the foreign investors he needs. He is worried about a Palestinian state. And he doesn't want to admit to his domestic and Syrian critics that his Israel alliance might have been wrong. So he stews privately and writes Mr.

Netanyahu angry letters.

The Palestinians: Also paralyzed.

estinian terrorism in many months, and Mr. Arafat does not want to unleash the give a green light to Hamas suicide bombers, because this would turn the United States against him. So he stews

The last of the

and writes letters to Mrs. Albright. What you have, for the moment, is a negative equilibrium. Its stability is an illusion because it is not built on positive understandings but on problems not solved, promises not kept, decisions not made and anger not vented.

Worse, what you feel here is that even if there is a deal, things will not really improve. Mr. Netanyahu's whole approach to the Palestinians is based on the notion that there is no Palestinian people, with its own interests and politics. That is why he negotiates with America and gives the Palestinians a choice of accepting what he is willing to offer America or taking nothing. Even if he can engineer a deal on

those terms, it will not be stable because no real Palestinian consensus will underlie it, only an Israeli diktat.

A Good Visit to China, but Don't Overdo the Harmony

By Richard Cohen

WASHINGTON — It is hard to know anymore what is historic. We have the historic this and the historic that and the historic fact that anything on television is historic. So I will not quibble with National Security Adviser Sandy Berger labeling Bill Clinton's exchange with Jiang Zemin as "historic," although for the moment nothing much has changed and Mr. Clinton was flabby where he should have been muscular.

The president, we have all been told, triumphed. He talked human rights where no president — maybe nobody — bas done so before. He engaged the Chinese leader on the issue of religion and Tibet and he made sure that all China, watching in rapt attention on television, understood that the United States and China disagree on human rights. All that was swell.

But Mr. Clinton need not have said anything about how we "Americans must acknow-

ledge the painful moments in referring to Chinese-American friendship. "Our friendship our own history when fundamay never be perfect. No friendship is. But I hope it will mental human rights were denied." When was that - the slavery era? That ended in last forever." But China and the 1865. Jim Crow? That ended a United States are not friends. We do not share a common herlot later, but as a legal matter it has been gone now more than itage or civic culture. 30 years. Is he talking about the

treatment of the American Indian? If so, he has characterized it properly, but again this is not contemporary problem. Tiananmen is. It occurred a with that country. mere nine years ago. It is not some 19th century atrocity, such as the near-genocide of the

American Indian, but an event whose participants are still in jail. Even lynchings, as awful as they were, are not in the same league (not to mention the same era) as the cold-blooded murder of several hundred people. America's past is not perfect.

It is China's present, though, that concerns us all.

have a diplomatic and commercial relationship. This is not a romance.

We Americans do with Britain, which is why we have been friends for so long. We do with Israel, which helps explain the virtually unique relationship

As for France, without whom we might still be a British colony, we are not so much friends as in-laws. It is a close but contentious relationship.

China, though, is a one-party dictatorship, not as bad as it once was but not as good as it should be. Mr. Clinton and Mr. Jiang appeared together on television because the government permitted it; it just as easily could have decided otherwise. at concerns us all.

could have decided otherwise. dialogue with Mr. Jiang, he Second, the president kept In fact, its decision was such a called for the release of pro-

surprise that relatively few Chinese saw the debate. China and the United States

The language of diplomacy eschews precision. I understand. I did not expect Mr. Clinton to call the Chinese leaders all sorts of names, nor do I think

he should have. His visit has been worthwhile. China is not a contemporary version of the Evil Empire. It is moving away from authoritarianism and toward

something else — it is too soon to say what. What is more, Mr. Clinton talked in clearer, less ambiguous terms when he andressed students at Beijing University. There he said that "certain

rights are universal." Earlier, though, he fudged when talking about what had happened at Tiananmen. In his

testers still in jail and referred to other matters, still secret, that he had discussed with the Chinese leader. Then he backtracked by saying that "there are legitimate and honest differences in the way we look at 1 this." Not for me. Innocent people were murdered. China is

simply wrong. I was not one of those who opposed this trip or who demonize China. Still, it is ultimately patronizing to treat the Chinese as if they are going through a development stage in which human rights is a luxury they can ill afford right now, or to admit that we, too, made some mistakes on the way toward perfection.

This language of moral re-lativism, embedded in an otherwise excellent presidential presentation, marred Mr. Clinton's message. If I heard it, then so did his hosts, and what grated on me must have sounded like the sweetest music to them.

Be Certain Any NATO Intervention in Kosovo Is Legal

 $B^{ ext{RUSSELS}}$ — As violence rises in Kosovo, calls for NATO intervention become more strident. The alliance is readying its armory. Those

making and those hearing these calls should beware. Armed intervention would cause greater bloodshed and threaten the post-World War II order in Europe.

If the swords come out, the consequences will be grave. and not only for Yugoslav President Slobodan Milosevic. With him, all the Yugoslav nations -Serbs, Montenegrins, Kosovars — as well as their neighbors may endure grievous suffering. And unless NATO's leaders submit the calls for intervention

Bonn and Paris.

Pressure is being exerted in-

in greater bloodshed. At NATO, some member governments, frustrated by opposition in the UN Security Council are giving the organization's right to act

independently. Defense William Cohen considered United Nations endorsement of NATO action welcome but not imperative. But that would create a precedent for any hegemonistic grouping to extend its power under similar claims.

After the failure to impress by initial demonstrations of force, such as the air exercise by allied aircraft over Albania and Macedonia, NATO's military. authorities have now submitted a graduated plan of military options to the North Atlantic Council. They have added a clear warning: Success can be guaranteed only if member countries are prepared to go through with their intervention

to its logical conclusion. The first action over Yugoslav territory could be imposition of a no-fly zone, similar to previous bans over Bosnia and northern fraq. If allied air patrols enforcing it are threatened by the recently strengthened Yugoslav air defenses, these would have to be suppressed, first in Kosovo and then perhaps in the whole of Yugoslavia.

The chain reaction could then

attacking known centers of re- the Yugoslav military comsistance. This has led to casmand and control system, ualties and an exodus of large headquarters, troop concentranumbers of refugees. As resistions and transport nodules such tance hardens, he will be forced as railway junctions, bridges, tance hardens, he will be forced—as railway junctions, bridges, to increase the military effort in roads. Economic targets would the province, which will result be next on the list, and thereafter it is not a big step to the bombing of Belgrade.

Perhans this would result in the downfall of Mr. Milosevic. If not NATO ground forces would have to go in to complete dependently. the task, risking significant Recently, U.S. Secretary of losses. In the end, NATO would prevail, but the result would be a devastated Yugoslavia.

Restive minorities in the Voivodina province, in Macedonia, in Bulgaria and in Romania would be encouraged to stir. Eruptions might break out elsewhere in the Balkans, Allied forces would have to remain in

the area indefinitely. In the struggle to obtain justice for the Albanian minority in Yugoslavia, the external application of force may be necessary, and NATO may be required to exercise it. But it must not on any account do so on its own authority. This it should now state very clearly, in answer to cries for NATO intervention

in Kosovo or elsewhere. The alliance is the most powerful military force in the world, but it is not an independent power element. NATO is available to serve the international community in enforcing its laws. It should do so is the Kosovo crisis.

The writer is editorial director of NATO's 16 Nations, an independent military journal. He contributed this comment to the continue to the elimination of International Herald Tribune.

IN OUR PAGES: 100, 75 AND 50 YEARS AGO

1898: French Ministry PARIS - M. Henri Brisson, the head of the new Ministry, won a victory. A vote of confidence in the Government was passed by a majority, thanks to the Social-

ists. Two principal reforms were what the Government hoped to devote its attention to. The Government was going to ask for the suppression of the personal tax on furniture and the doors and windows tax, which would be replaced by an income tax. based on exterior signs of fortune. The second reform was the question of old age pensions.

1923: Court Fight

HELENA, Mont. — President Harding bearded the "irrecon-cilable" lion in his den, when here, in the home State of Senator Borah, leader of the Senate's opposition to the Hague World Court, he again upset his regular program to bring up the subject

of the Court. He urged the people of Montana to give their influence to bring about American membership in the international body, which is meant to provide justice among nations.

1948: A Balkan Bloc BELGRADE - Yugoslavia's

Communist leaders firmly proclaimed their country's independence and called for formation of a Balkan Bloc "uniting the Albanian, Bulgarian and Yugoslav people on the prin-ciple of national equality." The program was advanced by the Central Committee of the Yugoslav party. The Central Committee denounced as "lies" and "slander" the sharp condemnation by the Cominform of policies pursued by Marshal Tito. "National independence of the people of Yugoslavia is the condition for their road to so cialism and their progress in general," the committee said.

OPINION/LETTERS

LETTERS TO THE EDITOR

Illegal in Mexico

At a United Nations drug conference in New York on June 8, President Ernesto Zedillo of Mexico declared that no country should feel entitled to violate another country's laws for the sake of enforcing its own. This was a clear reference to the U.S. sting aimed at the laundering of drug money, in which more than two dozen Mexican bankers were snared.

Mr. Zedillo's government was not informed of the operation in advance. The Mexicans have said that the operation violated their country's sovereignty.

Undercover operations, by their very nature, involve decep-tion and ethically questionable tactics. By creating an artificial criminal milieu and holding out temptations for criminal opportunities that do not otherwise exist, U.S. authorities are not punishing crime but testing people, and punishing those too weak to

This case is in the realm of foreign policy, to say the least. Treasury Secretary Robert Rubin overstepped his authority, and Secretary of State Madeleine Albright was correct to reprove

The United States has no right to treat its neighbors this way. PAUL WOLF. Glen Mills, Pennsylvania.

Herbicide Again

Regarding "Columbia to Test Herbicide on Coca" (June 22): Has the United States learned nothing from its use of herbicide in Vietnam? It appears that the Washington plans to carry on the drug war to the bitter end, even if it means producing more Vietnams in South America.

PETER WEBSTER. Le Cannet, France.

More Like Skating Idon't usually visit Europe in the

summer, but the temptation to be able to follow the World Cup in real time was too strong for this old soccer player, so here I am. At this point, I have two observations. One is that this sport, which I have believed to be the most su-

premely objective of all - one goal equals one goal, the side with the most goals wins, no two-point and three-point baskets, points after and so on - has become more like figure skating in that artistic impression has acquired great weight. The player who can best act the victim of an ignominious foul usually gets the referee to call in his favor, and several games were decided by penalty kicks that were clearly unjustified when seen in replay.

The second concerns the U.S.

team, with the dubious honor of being, with Japan, the only team

to end the first round without a

single point. Why?
To me it seems obvious. They played like Americans — just like the kids one sees on Saturday mornings in the nation's parks, where, trained by their dubiously qualified coaches, they compete in well-organized leagues without ever having gone through the stage of everyman-for-himself street soccer that boys in the rest of the world (except perhaps Japan) go through. Unless U.S. soccer manages to recruit players from the social milieu that feeds the NBA and NFL, the idea of an American World Cup triumph by 2010 or 2014 is a bad joke.

JACOB LUBLINE

Strasbourg.

Regarding, "The Cross-Chan-nel Feud Over the World Cup," (Features, June 4):

There is no feud. There is a onesided barrage of childish insults by London tabloids. French media have, Dieu merci, disdained to respond in kind. JAMES WIMBERLEY.

Suffering From the Bomb More Than 50 Years Later

By Akiko Kusaoi

TOKYO — My friend Keiko L looks no different from any other healthy woman, but she must take three hormone pills every day. The pills are a constant reminder of the cancer she had and the surgery 17 years ago to remove her thyroid gland.

Keiko, 39, is a second-generation victim of the atomic bomb dropped in Nagasaki. When the atomic bomb was dropped on Hiroshima on Aug. 6. 1945. 140,000 people were killed.

MEANWHILE

Three days later, another A-bomb was dropped on Nagasaki and 74,000 were killed.

Mayor Itcoh Ito of Nagasaki told the International Court of Justice in November 1995 that a half century after the bombing, 62,000 people in Nagasaki suffered from aftereffects. My friend Keiko was born and brought up in Nagasaki, and she has seen many others who bear the physical and emotional scars of the tragedy or who suffer from various radiation illnesses.

She was a 22-year-old hospital secretary in Nagasaki when a postcard came, saying she had been randomly selected to have a medical checkup as one of the second-generation hibakusha, children of those who were exposed to radiation.

She went for the examination at the hospital of Nagasaki University, and the next month she was hospitalized for thyroid surgery. She was told that there was a tumor the size of a quail's egg and that it had to be removed because "it may turn malignant."

Later, she saw her medical records and learned that the diagnosis had been thyroid cancer. No one had dared to tell her. Her father told Keiko later that her mother had wept, that she was certain that Keiko had developed cancer because she herself was exposed to radiation.

Both of Keiko's parents were exposed shortly after the bomb was dropped. Her father renimed from the armed forces to Nagasaki immediately after the sumender terms were finalized on Aug. 14. He had no knowledge of the atomic-bombing. His home was not more than a kilometer away from where the bomb was dropped. His mother and sister were killed by the blast. His father and another sister were hospitalized but quickly died.

Keiko's mother came to Nati gasaki to look for relatives several days after the bonth was dropped and has stayed ever since. The two met in Nagasaki, and Keiko was born in 1959. For as long as she can remember, her mother has been unhealthy.

The doctors told Keike that there was no proof that her cance had been caused by the radiation her parents were exposed to. Government-affiliated research orgali nizations deny that radiation has affected the second generation.

Still, the prefectural governments of Tokyo and Kanagawa provide special health assistance to second-generation hibakusha who suffer from certain illnesses, such? as thyroid cancer, that are strongly linked to radiation exposure. And there is prejudice. Some secondgeneration hibakusha face rejecti tion in marriage partners because of fear they may not be able to have healthy children.

Keiko lives a happy life. She studied in Britain and she now works as a free-lance translator of English articles and literature into Japanese. She is not fearful of the recurrence of her cancer. But there was a time when she was depressed." She told me her life was "blank" for five or six years after her surgery. ...

She hopes to have children when she meets the right man, but she is also worried about possible sideeffects of the hormone pills she has been taking for so long. She does not consider herself a victim and she has never publicly told her story." "We say in Nagasaki that people in Hiroshima are angry, and that we the Nagasaki pray, she says. We pray rather than speak out loud." "

But this is not a time for praying. It is a time for telling the world that nuclear bombs are not usable weapons. Nuclear devices should not be tested in childish tit-for-tat exercises. Leaders should not talk of the deterrent value of nuclear weapons. Prime Minister Nawaz Sharif of Pakistan recently sugges: ted that Hiroshima and Nagasaki would not have happened if Japan had had nuclear deterence. How dare he say that? That is not the lesson of Hiroshima and Nagasaki. Leaders should think of more

than sepia-colored photographs of victims when they talk of nuclear arms. They should think of Keiko and others like her. International Herald Televines,

World opinion has drifted away from supporting Chief Abiola's claim, as the Tony Lloyd, made clear Friday.

Mr. Lloyd, representing the European Union, angered many Abiola supporters by saying the millionaire no longer had a

valid mandate for the presidency. Those supporters, concentrated in southwestern Nigeria, demand that Chief Abiola be made head of a govemment of national unity until fresh

elections can be organized. That is not acceptable to many of the politicians who joined General Abacha's flawed transition to democracy.

It would also be unpalatable to many in the military, who General Abubakar, a northerner, has to persuade to give up the power they have enjoyed for all but 10 years since independence from Britain in 1960. (Reuters, AP)

Villagers Fleeing As Area Is Overrun

BELACEVAC, Yugoslavia - Scrb security forces overran a strategic coal mine just west of Kosovo's capital on Tuesday after a withering offensive that sent thousands of villagers streaming. Serbian authorities said Yugoslav

border guards killed at least eight ethnic Albanians in a separate incident north-west of the city of Djakovica in western Kosovo. But there was no immediate sign on Tuesday that Serb security forces were mounting coordinated assaults against insurgents in other parts of Kosovo, or that a long-feared counteroffensive by Belgrade had commenced

The Serb-led Yugoslav Army and Serb police took the open-pit mine near the end of a second day of pulverizing attacks on the area that the ethnic Albanians' Kosovo Liberation Army had captured last week.

The mine is strategically important because it supplies coal to the nearby
Obilic power plant, which provides electricity for most of Kosovo as well as to
Macedonia and northern Greece during

Amid the fighting, a human rights group accused the Serbs of rape and other war crimes in the conflict this year. Another said both sides were guilty of excessive use of force.

This week's eruption of major clashes west of Pristina, capital of the secessionist Serbian province, has dimmed chances of a diplomatic settlement to

halt the steadily worsening conflict.
Throughout the day Tuesday, Serb tanks rolled up to the edge of a ridge overlooking the coal mine, fired into the myth," Dr. Roberto Siliciano of Johns Hopkins University said Tuesday. "I village, then rapidly disappeared.

Throughout the surrounding hills, police snipers, cannous and mortars—well-camouflaged in the lush green hills—all fired on the KLA-held area.

After a 24-hour bombardment of the area, Serb forces ceased their fire about 6

sperm has increased dramatically in the grees centigrade) and require regular maintenance. By contrast, freeze-dried sperm can be stored-in small, vacuumsealed glass vials at room temperature.

Freeze-drying is a process in which water is extracted by means of a vacuum; pump or other method under freezing conditions. Scientists have used the technique to place viruses, bacteria, yeasts and some fungi into a bone-dry state of suspended animation; when water is added.

he organisms again show signs of life. Until now, however, and despite repeated efforts, the molecular violence wreaked by the freeze-drying process has proven too extreme for animal cells.

The Hawaii researchers used standard freeze-drying equipment to dessicate more than 10,000 mouse sperms that had been suspended first in a preservative fluid. Upon rehydrating the powder with a few drops of water, sperm were again? visible under a microscope but none were moving. Many of the sperm heads hadbecome separated from their tails, key membranes were disrupted and biochemical tests indicated that all were dead.

The researchers selected 57 of the bet-? ter-looking dead sperm to see if they were: capable of fertilizing egg cells. Since dead sperm cannot swim, the researchers used a technique called intracytoplasmic sperm³ injection — commonly used in cases of human infertility — in which individual; sperm are mechanically stuffed into single egg cells in lab dishes.

More than 90 percent of the egg cells survived the procedure and began developing into embryos. Of the 46 embryos: transferred to the wombs of surrogate mother mice, 14 developed normally and, after birth, grew into fertile males and fernales.

BRIEFLY

French Tests Pose No Big Risk

VIENNA — The world's atomic watchdog agency said Tuesday that although France's nuclear testing in the South Pacific had posed no health risks, this conclusion should not

be considered a carte blanche for further tests. The International Atomic Energy Agency, in a report on Fighting Rocks Guinea-Bissau the current and future effects of the tests in French Polynesia from 1966 to 1996, said lingering radiation levels were so low they could not be medically diagnosed.

"The results of this study should not be used to encourage" nuclear testing," said Abel Gonzalez, director of radiation and waste safety.

Berbers Protest Singer's Death

ALGIERS — Thousands of Algerian Berbers marched-Tuesday through their stronghold of Tizi Ouzou, east of Algiers, to protest the murder last week of the popular singer Lounes Matoub, witnesses said.

In Algiers, anti-riot police and paramilitary gendarmes deployed in force at the main approaches to the city center barred marchers from staging a similar protest, they said. The marchers blamed the government for the killing of

Mr. Matoub, a staunch anti-government democrat and supporter of the Berber cause, witnesses said. They also chanted anti-Islamist slogans and urged the authorities to recognize their language as an official language along with

LISBON — Fresh shelling rocked the capital of Guinea-Bissan on Tuesday as planned talks between loyalists and rebels seeking to topple the government of President Joso Bernardo Vieira were called off. Senegalese troops backing the elected government aimed

over 100 artillery rounds at rebel positions on the outskirts of the city, and insurgents replied with brief bursts of heavy weapons fire, the Portuguese news agency Lusa report-(Reuters)

By Anita Gates New York Times Service

EW YORK - Liam Neeson didn't look so scary. The large, almost lumbering screen presence from films like "Schindler's List" and the current "Les Miscrables" just seemed tall and slim in person, with more delicate facial features than those of the lovers and fighters he has played.

Maybe he was just tired. Neeson was Aughly halfway through a 14-week Broadway run, following a successful run at the Almeida in London, of "The Judas Kiss," in which he plays Oscar Wilde in two conditions: doorned and drained

"It's hard, you know," said Neeson, seated in a back booth at Café des Artistes in Manhattan. "It's such an emotional journey for me every day. He's practically a broken man, which two years' hard labor did to him."

Neeson becomes that broken man eight times a week, portraying Wilde in 1895 (Act I), just as he makes the decision not to flee England but to stay and face imprisonment for homosexual acts, and in 1897 (Act II), just after his re-

referring to the psychological demands of the role. "Otherwise there's no point in doing it, you know. And sometimes it pays off, and other times it doesn't."

The challenge is in leaving behind the character's mind-set when the curtain goes down.

Neeson was eager, he said, to get home to spend time with his two sons, 3 and almost 2, who are at that "running about "stage. The children are the focus of his weekends, when he and his wife. Natasha Richardson, take them to the

One recent exception, however, was the weekend of the Tony Awards at Radio City Music Hall, where he presented an award and Richardson was honored as best actress in a musical for her portrayal as Sally Bowles iп "Cabaret."

It was a subject of much discussion when Neeson didn't receive a Tony nomination for "The Judas Kiss." His New York reviews had been all over the place, describing his work as aston-ishing, enthralling and "the perfor-mance of the year" on one end of the scale, and as actorly and "a bit of a snooze" on the other.

Reviews also sometimes included

- from brilliant, luminous and "cleverly elliptical" to static and "mindnumbing.

Neeson laughed off the Tony controversy. "New York audiences are so responsive, you know, incredibly interested," he said. London theatergoers, he said, sometimes "came with a preconceived idea of who Oscar Wilde was, hoping to see this dandy, this fop who would come out with one-liners. and that's not what David Hare has

TILL, Neeson does see Wilde as a colorful, fascinating character. In fact, he professes a certain national possessiveness about the man and "his love of words."

The English tend to claim him as their own, but he wasn't," Neeson said.
"He was very, very Irish, brought up in very strong tradition of Irish storytelling."

"His mother was this huge, outrageous Irish nationalist and was a bit of a cult hero," continued Neeson, who is from Ballymena, Northern Ireland. "She always had an open door to vis-

"You just have to go there," he said, comments on Neeson's having been iting artists and lecturers. So he grew up the role of the psychological demands cast in the role at all. The play, by David the role. "Qtherwise there's no point that equally mixed adjectives books, yes, but of people coming from the rod and how it throws the line out." all walks of life."

Wilde's father, he said, was a noted eye and ear surgeon who died in Oscar's youth. In what Neeson called "one of these strange twists of fate." Wilde died of an ear infection, one that his father probably could have cuted.

Before portraying Wilde, Neeson paid a visit to the off-Broadway production of "Gross Indecency: The Three Trials of Oscar Wilde." "It was sort of like a fascinating documentary," he said, "but I was moved by it."

Neeson said there had been some negative reaction to his having taken on the role. "I sensed that there was a kind of a gay thing, of a heterosexual playing Oscar Wilde," he said. Neeson finds the concern puzzling.

We're not talking about a different species," he said, looking amazed that anyone could consider playing a person of different sexual orientation that great

When Neeson wants to get away from opinions like that, and from pretty much everybody, his passion is fly-fishing. 'I'm very absorbed in that," he said. "There's incredible parapherna-

There's an art form in casting Basically what you're trying to do is imitate a

"I'm not terribly successful at catching fish," he added, "but that's not why I do it really.

E is familiar with the book "Fly Fishing Through the Midlife Crisis," he said, but ... contended that he wasn't fazed by his recent birthday, his 46th, which fell on Tony Awards night on June 7. 'But I freaked out at 30," he re-

called. "I was actually doing what I always dreamed I'd be doing. I was on location doing a film, in the Dolomites in the middle of Italy. I wasn't working that day, so I stayed in my room and went through this miserable depression. This was my little exorcism."

Asked if he was romantically un-

attached at the time, which might have contributed to his gloomy outlook, he said: "No, I wasn't here."

Neeson was linked with a number of famous women (including Helen Mirren, with whom he had a long rela-

Neeson stars in "The Judas Kiss."

tionship) before he and Richardson fell in love as co-stars of the Roundabout Theater's 1993 production of 'Anna Christie.' They were married in July

1994.

She is leaving "Cabaret" at the same time Neeson completes his run in "Judas Kiss." Then it's back to London to finish filming "Star Wars: Part 1." Nobody seems to have a problem with his playing a Jedi knight.

Reviving 'Miss Jean Brodie': Definitely Past Her Prime

By Sheridan Morley

ONDON - Why bother to revive "The Prime of Miss Jean Brodie"? True, it does afford an actress in middle years one of the all-time great women's roles of modern theater, but the National Theatre has not, at least hitherto, been either minded or funded to satisfy the egos of female players pointing out, however rightly, that Shakespeare never wrote them a "Queen Lear."

Since it first appeared on the West End stage in 1966, I have seen our Miss Brodie played there by Vanessa Redgrave, Anna Massey, Elizabeth Sellars and (only a couple of years ago) Patricia Hodge. On the wide screen I Tive seen Maggie Smith play her, and on

MILAN MENSWEAR

Brodie on ice or under water, but that can only be a matter of months.

But that still doesn't make it a great still remains relentlessly "Goodbye lay, or even a very good one, Mrs. Chips," the story of a play, or even a very good one, and if the National is to start reviving old West End war- THEATER horses, I'd have been as happy if not happier to see them do "Dial M for Murder" or "The Chalk Garden," or indeed anything that offers a good night for someone other than just the star. .

True, Fiona Shaw is breathtaking in the title role, and because vast amounts of money and actors young and older have now been thrown at Jay Presson Allen's still-creaking adaptation of the classic Muriel Spark novel, it does come up looking as good if not better than ever

television Geraldine McEwan in a long-tunning series. True we have not yet had before. Allen has revised her original gerously fascist and charis-matic a leader as any of her script, something people have been begging her to do for years, so here we get more Spark than ever before, but this

> schoolteacher too much in love with herself for her pupils' welfare. As a result one of them is accidentally killed on the wrong side of the Spanish Civil War, another becomes a nun and a third a star actress, though in truth we never are told enough to care

about any of their lives after school. The two male teacher roles are also still incredibly underwritten, and none of the rewrites solve that, any more than they solve the creakingly predictable outcome. The point about Brodie has always been that she becomes as dan-

matic a leader as any of her prewar European heroes from Franco to Mussolini. and therefore has to come to a bad end, what with expulsion from her orthodox school and then death of cancer. I wish I could care, or at least never again have to hear that line about putting old heads on young shoulders. Annette Badland is here so wildly and wonderfully miscast as the head-

mistress that the main joy of an elaborately pointless evening lies in working out how she was going to get through the next encounter with Brodie without descending into a wicked but welcome parody of Laurel and Hardy Go to Girls'

School" in drag.
This time, Allen and Shaw and their usually admirable director, Phyllida Lloyd. seem to have decided to play

it as a kind of ecclesiastical thriller, so we get suitably Catholic references to the Last Supper and Renaissance Italian Art. But Judas in a gym slip doesn't really make much sense either, given that we know very early on who is Brodie's betrayer, and as always in creaky 30s thrillers you just have to look for the least likely. Moreover, if you give Brodie a production this vast, on a truly wondrous school-and-convent set by Huntley Muir, you are simply stretching already thin material until all the uniform seams start to show and fray from the front. Some altogether weird stage-management also had (at any rate on the press night), girls thinking they were hidden behind panels out of which stuck most of their limbs and a supposedly offstage violinist walking well onto the set. The fact that it is a school play doesn't mean that it has to look like one.

At the Royal Court Downstairs, hitherto (and hopefully soon again) the Duke of York's, the new David Mamet "The Old Neighborhood," recently seen on Broadway with Patti LuPone, starts as brilliantly as any of his recent work. Two men in Chicago are discussing the current state of Jewishness, with special reference to whether it would have been better to be a Jew in Europe, with everything from the pogroms through "Fiddler on the Roof" to Hitler, than in America where nowadays it seems to make precious little difference who you are.

From that bleak and brilliant start we go rapidly downhill. One of these men (Colin Stinton; the other in the performance of the evening is Linal Haft) then decides to revisit his past in the forlorn hope that he might thus rediscover his present and maybe even his future. But in scenes first with his sister (an angry Zoe Wanamaker) and

Colin Stinton and Zoe Wanamaker in David Mamet's "The Old Neighborhood."

Fiona Shaw in the title role in "The Prime of Miss Jean Brodie.

then a former lover (a haunting Diana Quick), it soon becomes clear that nostalgia is not the answer either. The trilogy lasts only 90 minutes in its entirety, but somewhere along the way we seem, on both sides of the foot-

lights, to lose the plot.

The other New York import of the week has amazingly been running off-Broadway for several years; Paula Vogel's "How I Learned to Drive" (Donmar Warehouse) is, for all that, a truly terrible little play, the kind you might have expected from some unholy liaison between Truman Capote and

Louisa May Alcott. We are, mainly, in 1969 Maryland where a young girl is sexually assaulted by her uncle during driving lessons. As he is called Uncle Peck and she Li'l Bit. it is clear we are not expected to find much subtlery here. Lolita comes to the

Combelt, and comy it certainly is, with three other actors forming a sort of family chorus while Kevin Whately and Helen McCrory frantically try to get their accents right.

Unlike some local commentators, I don't think Vogel's play will encourage pederasty among its audiences any more than "The Mousetrap" has ever encouraged them to go out and kill people. It may, however, stop all uncles from' teaching their nieces how to drive, and by the end of the evening Li'l Bit has grown into her 40s, which she seems to spend driving around the highways and ways of America with a bottle of whiskey on the passenger seat. It is therefore arguable that she is now still more of a threat to society than her abusive uncle. I guess some plays, unlike Li'l Bit, just don't travel, and this is surely one of those.

On the Runway, Life's a Beach

By Suzy Menkes International Herald Tribuna

ILAN -- if life's a beach, what are you going to wear for summer by the ocean? Lin the menswear designer shows, Milan's message is brief. Make that briefs. A slip of a swimsuit is symbolic of a change in vacation wear as denim hot pants and sawn-off clamdigger trousers start to challenge

sloppy, over-size state wear.
You thought that cungy resort clothes em only by a washedvere tasteless while yuppies ex-? That was then.

Now that ma aream fashion has converted to sportswear, a different take is required at the cutting edge. And in a city where good taste and big business meld into the ubiquitous beige suit, it is refreshing to find shows as deliberately tacky as those sent out by the French designer Jean Paul Gaultier and the Canadian design duo at D Squared.

Both put sand on the runway and made refined masculine elegance seem like something from another generation and planet. For Gaultier, whose once innovative tailoring didn't add up to anything much, sexy denim and taut, tight swimwear stole the show. His inventive printing (shaded or trompe L'eil on wide jeans) and the way that imibriefs were worn over mesh slips (with canvas hats, clinking chains and Viva Zapata mustaches) gave the show a funky feel of a Cote d'Azur campsite

recking of French fries. Mixed with the low-down and tacky were high-end couture pieces; a tuxedo jacket or evening robe worn with jeans; cargo pants in silk; a sheer shirt in the designer's signature pinstripes.

From Emporio Armani, a sweater and cropped pants, left: Gaultier's denim hot pants and knitted sweater set.

The witty take on Daytona Beach in the 1980s sent out by D-Squared meant models emerging from a battered trailer garish terry bathrobes or those skimpy swimpants. Behind the jokes (a camouflage cape made from a ground cloth) were slyly sexy modern pieces with a military touch.

As a poolside show, Gianfranco Ferre's was pretty steamy - but don't count on getting a smooth tan in the multistrapped sportswear he sent out in his GFF line. It must have taken a lot of design ingenuity to create straps going every which way, creating diagonal harnesses — even under the filmy overalls as the models walked through the azure water at the finale. Under and over the trusses were less bizarre tailored or knit-

ted pieces in graphic black and white. Giorgio Armani has evolved a formula for his Emporio line. Take a vast venue (a cavernous new nightspot). flash up the logo, invite stellar celebs (Arnold Schwarzenegger for the show and former President George Bush for the party) and send out the merchandise tons of it - to dress a man from

office to paradise isle. It might sound relaxed and easy, but this season's show was complicated by taking the casual Armani sportswear look and then tweaking its shape or presentation. So an asymmetric hemline swallow dived up and down on a sloppy sweater, checked shirts bloused like sweatshirts under suits; voile shirts in Neapolitan ice-cream stripes were cropped at the midriff; sarongs were elaborated as togas, and parkas topped

Of course there were lots of simple outfits, including the monochrome suits that opened the show. In fact, the clothes seemed a bit too easy when Armani's take on summer meant floppy beach pajarhas and sleeveless tunics over track pants. The overall feeling was that items were being mixed for the sake of it and that the collection needed a stronger story and body line.

The tailored look of the 1990s slim, straight, simple and military — is well-established and Costume National Homine endorsed that trend, showing short frim coats, square jackets with two military pockets and the zippered blousens that look sleek with flat-front

The shows Tuesday were about established designers doing their thing. So Fendi focused on leather and knit, sending out the shirt jacket in supple leather and giving sweaters and cardigans lively extures. Laura Biagiotti added to natural yarns fizzy colored knits worn with madras checked shorts. Krizia followed the sporty trend with fresh mixes of chocolate leather jackets and crunchy vanilla sweaters. In the casualizing of simple clothing, the shirt-jacket was to the fore and footwear meant sandals.

He may be seen as King Canute, who stood on the shoreline trying to hold back the waves, but one designer is holding out against the casual trend: Valentino. His presentation of bantamweight suits and light-as-a-feather cashmere sweaters had a refined elegance in its neutral tailoring with carefully crafted details. Valentino even had a word for the baby-soft knits in pastel colors: "libidinous cashmere" man with tender tastes.

ing is a place of constant renewal, whether it's the spanking-new airport.

...the pulse-quickening action of the futures exchange...

or the new commercial projects that continually transform the city.

POSITIONED TO LEAD THE RECOVERY

Hong Kong's unique position in China and in Asia should ensure its resilience.

ong Kong's transition from a colony of Britain to a special administrative region of China is history. As the first anniversary of the transfer of sovereignty is being cel-ebrated, the Hong Kong economy has managed to avoid much of the financial turmoil that has hit many Asian economies during the past year. The Hong Kong dollar's peg to the U.S. dollar has held firm, and Hong Kong's banking system remains solid.

FOR SEA

MMERCIAL

MYESTMENT HOPERTIES

Its open economy has meant that Hong Kong has not been immune to economic weakness in Asia, but the downtum has been more orderly here than elsewhere and has not threatened its underlying structure. Hong Kong's role as Asia's major banking and trade

center and as China's trade entrepot have supported Hong Kong's stability relative to other economies in the re-gion where currencies have weakened and there have been sharp falls in economic performance.

Ian Perkins, chief economist at the Hong Kong Chamber of Commerce, stressed that once Asia begins to restresses that once Asia begins to recover, thong Kong will lead this recovery, telying on its strong banking Kong's interests," he said. regulation and open economy.

Elections for Hong Kong's legislative council have further reinforced Hong Kong's reputation. A record 53 percent of higible voters turned out for the elections in May, despite stormy weather and predicted low turnout. The Democratic Party, led by Martin Lee,

Kong Governor Chris Patten was enthusiastic about the election results and praised the Democrats' victory as good for Hong Kong. "The size of the turnout and the size of their support over 60 percent for the candidates who espoused pretty unqualified democratic values - I think that will mean that a

Buffeting winds Despite these successes, the Asian financial and currency crisis has not completely bypassed Hong Kong. In the first quarter of 1998, its economy contracted by 2 percent on an annualized basis, according to government was the big vinner, claiming nine of the statistics. Weaker fixed and portfolio Private consumption was driven lower 20 geographical seats. Former Hong investments and lower private con-

sumption appear to have led the fall, although the government has not offered a breakdown of the figures. compared with the Hong Kong dollar, Private consumption was driven lower while European and North American

tourist arrivals dipped after 1997's handover festivities. Property prices have fallen since the beginning of the year, partly due to the government's pledge to increase the supply of new homes to 85,000 a year. Higher interest rates and tighter bank lending have compounded the effects. In late May, the special administrative

region's chief executive, Tung Cheehwa, eased restrictions on mortgage lending and removed antispeculative measures. Within days, Hong Kong's property agents were flooded with potential buyers, reminiscent of the crowds that jostled for position during Hong Kong's long property boom.

CHEK LAP KOK OPENS ITS DOORS

This \$20 billion project gives the city a new airport as well as complementary road and rail links.

ravelers will never have encountered a building quite like it. When the first visitors walk into the new Hong Kong international airport terminal at Chek Lap Kok, they will be overawed by the soaring all-glass structure with its sweeping mountain and ocean views. The terminal building was designed by Sir Norman Foster, whose architectural credits in the city already include the strikingly futuristic Hongkong and Shanghai Bank headquarters.

building, as did the army of workers and specialists who made it all possible. Before work began at all, engineers had to blow up the original island of Chek Lao Kok and a neighboring outcrop, using the blasted rock to fill in the ocean. Once the airport platform began to take shape, the terminal building, fuel storage depos and office blocks could be built.

The out-of-the-way site, off the northern tip of outlying Lantau Island, was selected because it was one of the few places in Hong Kong where airport

Sir Norman has outdone himself with the airport construction and operation would not be inhibited by uilding, as did the army of workers and specialists skyscrapers or high mountains. From uitial design to opening day on July 6 took less than seven years, a magnificent feat of engineering on the same scale as the Channel Tunnel linking France with England.

It will make a buge difference in the way Hong Kong does business into the next century, starting with the

ruled by London: 28,000, compared with last year's 22,000.

With 1,200 American

Few fail to be bowled over by its fast pace; most are dazzled by its bold and extravagant architecture; all are awed by its vivid cultural contrasts and confidently cosmopolitan spirit.

Hong Kong, a small, compact city compared with many others in China, has an influence and importance out of proportion to its size. Cantonese food is one of the world's most popular Asian cuisines, found on Main Streets from Glasgow to Galveston; Hong Kong stars and directors are Hollywood's flavor of the year, with Jackie Chan, John Woo and Chow Yun-fat riveting audiences worldwide.

Hong Kong itself takes the international attention in its fast-paced stride, as it did last year when it was reunified with China. This is, after all, China's most cosmopolitan city, where the mix of old and new, East and West, has produced an environment that sizzles with excitement and is imbued with a can-do spirit. Geographically, it is blessed with a embraced outside influences:

economically, it is a success story created through hard work and resourcefulness.

The city's engineering showcase, the new Hong Kong international airport at Chek Lap Kok. opening on July 6, is a shining example of the way Hong Kong works. The glass-roofed terminal — the world's largest — was designed by Sir Norman Foster and built in record time by a crack international team. It will be run by Hong Kong professionals and will be capable of handling 35 million passengers a year. Airport and hotel taxes have been reduced; no visa is required for U.S. visitors.

There are many more compelling reasons to pay a visit this year. The city's world-renowned hotels are offering great deals, airlines are pitching in with spe-

cial fares and new tours cover every nook jambalaya, soft-shell crabs, gumbo and tivity in Hong Kong may be to wander at and cranny of fascinating Hong Kong. Amazement begins the moment passengers step off the airplane, into the world's newest and largest terminal. Visitors will marvel at the cavemous building before making their way to the new Airport Express rail service, stepping aboard whisper-quiet trains that hurtle downtown in a mere 23 minutes.

That's just a foretaste of what's to come: no streets on earth have the zing and zip of Hong Kong at full commercial tilt. The crowded downtown sidewalks, full of busy, deal-making pedestrians, are flanked by soaring skyscrapers, notably the triangular Bank of China building, the sleek Central Plaza and the futuristic Hongkong and Shanghai Bank headquarters.

Other buildings — in particular Pacific Place and Times Square — have set new shopping-mall standards, their wide and airy walkways tailored for a gentle amble around the designer-label stores. This extends to the airport, where the brandnew Sky Mail offers over 100 shops for

While Hong Kong imports the swankiest labels from Europe and the United States, displayed in suitably tony stores. it has retained the back-alley bargain areas of Granville Road, The Lanes, Temple Street and Stanley Market, where haggling noisily and wandering aimlessly are as important as the final purchase. Somewhere in between the two extremes is Shanghai Tang, a store

specializing in its own singular and quirky retro style.

Hong Kong itself is something of a one-stop shop for Chinese culture, where traditional beliefs and customs coexist with the cutting edge. In Central District, the venerable, plodding Star Ferry lies a short stroll away from the speedy subway system, while the trendy party zone of Lan Kwai Fong is located down the hill from Hollywood Road, a wonderfully eclectic mixture of antique shops and incense-filled temples.

A few strides farther along comes SoHo, short for South of Hollywood Road, where bistros, cafés, bars and restaurants have sprung up in the past few years, along the path of the world's longest elevator, which speedily transports people from downtown to resid-

Among the Indian, French, Spanish and — of course — Chinese restaurants is The Bayou, run by Lori Granito, a New Orleans native who moved to Hong Kong with her husband. Ms. Granito figured magnificent harbor; historically, it has locals and tourists would be partial to

glorious day out.

nearest road, where taxis and buses take weary walkers back to Sai Kung.

Waterfront restaurants in the village serve delicious Cantonese cuisine, specializing in seafood, which is generally flopping-about fresh only moments before being transferred to the steamer, wok or pan. Part of the fun is ambling along the waterfront to personally select clams, shrimp, squid, crab and fish from open-display tanks. Add an order of choi sum, a couple of cold beers and a pot of Chinese tea, and the result is incomparably fine dining — at an eminently affordable price.

Another Cantonese specialty is dim sum, generally offered from early morning to lunchtime. It is usually a loud and raucous affair, with food wheeled out on trolleys and orders bellowed - ideal for visitors, who can point and nod at dishes that look tasty or smell good. Restaurants serving Chinese regional cuisines from Shanghai, Beijing, Sichuan and Chiu Chow are scattered liberally around Hong Kong. People here take their food seriously,

discussing the choice of restaurant with the intensity of a marriage proposal. The debate can go on for hours; Thai or Moroccan? Swiss or Texan? French or Singaporean? Italian or Nepalese? A steak in the Mandarin Oriental or fishball noodles n a Wan Chai side street?

Nowhere in Hong Kong is far from a restaurant or bar — good news for anyone planning a tour of its cultural heritage. Central district has fine examples of colonial architecture, including the magnificent Government House, now used as a greeting and dining enue for visiting dignitaries, and Flagstaff House, which has been turned into a tea museum.

Now is a good time to visit, as most airlines and hotels are offering discounts. There are many new things to experience, although the most rewarding ac-

will - on streets that are safe day and night — taking in its contemporary energy, reflecting on its historical past and observing the extraordinarily energetic people who make the city tick. Britain bequeathed some odd traditions such as the Noon Day gun, fired opposite the Excelsior Hotel every day, and the indelible habit of wearing pinstriped business suits in the sweltering heat of summer. Horse racing, too, is a British legacy that endures and thrives in contemporary Hong Kong, an industry with an \$11

billion annual turnover. Most significantly of all, the British introduced the English language, enabling most Hong Kong people to communicate easily with the outside world. For the visitor who wants to know more about Cantonese opera, Taoism, dragon-boat racing, feng shui or shopping bargains, a fluent English-speaking local is usually never far away.

For those who want to immerse themselves further in Chinese culture, experts are on hand to introduce visitors to the ancient art of tai chi and the intricacies of feng shul. In Hong Kong. ancient and modern are mixed and or gentle strolling along the green moun- matched daily. The ubiquitous goldfish tanks located strategically in the gleambitious hikers can tackle a section of the ing lobbies of modern hotels or offices are unlikely to be there merely for decoration — the feng shui master will have declared this the most propitious spot to sparkling tumuoise ocean. From there, it balance the elements of water, earth is a demanding half-day walk back to the and wind.

STILL AN EASY 7 hile there were fears last summer PLACE TO DO that Hong Kong's return to Chinese admin-istration would lead to an **BUSINESS** expatriate exodus, in fact the opposite has occurred; there are now more British nationals living in Hong

A CONVENTION CENTER WITH A VIEW

It looms confidently over the harbor skyline a sweepingly elegant symbol of Hong Kong's creativity, energy and sheer speed.

Convention and Exhibition Center Extension made its debut on the world stage last year — at the handover ceremonies between Britain and China then immediately knuckled down to the business of consolidating its position as Asia's top venue for con-

ferences and conventions. Few convention centers - indeed, few buildings anywhere - are located in such a superbly scenic position. The \$615 million center is in Wan Chai, close to the commercial hub of Hong jor wine and spirits exhibition, a film

attractions and restaurants

Inside, the total convention and exhibition area totals 63,5%0 square meters, more than enough to accommodate mega-meetings such as the Lions Club International Convention of 2005, which is predicted to generate around

\$130 million in tourist revenues. Already, the cente/has been host to a World Bank/International Monetary Fund meeting, and thas a full calendar for this year, including Asia's first ma-

uilt in an astonishingly quick Kong and a short cab or ferly ride away fair, a marine exhibition, a book fair three years, the Hong Kong from the city's major slops, tourist and a baby-products exhibition.

In addition, regular Hong Kong Trade Development Council exhibitions, which include cutting-edge displays of jewelry, watches and clocks, electronics and fashion, pull in a mil lion visitors annually from around the world

The glass-walled center is proving popular not only with trade-oriented visitors but also with tourists and locals, who can dine at the seven restaurants located there.

Mark Graham

The birth of Galatea Raphael Santi

It seems our new names are attricting a lot of attention.

It would seem that two of our hotels in Hong Kong are attracting a great deal of attention. Not because of our spectacular views or

the warm yet elegant atmosphere but our names, or should we say our new names.

As of the 1st of July 1998,

New World Hotel, Hong bng will be the New World Renaissance Hotel, Kowloon, Hong Kong New World Harbour View Hong Kong will be the Renaissance Harbour View Hotel, Hong Kong.

Authority

system

largest in terms of the volume of external banking transactions. About 500 banks and deposit-taking companies from 48 countries have operations in Hong Kolg. These include 82 of the world's 100 largest banks. The banking system is supported by the world's fifth-larges foreign exchange market and the largest equity market in Asia cutsida Isaas. outside Japan.

Adequate capital

The health of Hong Kong's banks is evident in heir capital adequacy ratios. The Bank of International Settlements, the central banker of central banks, has set as 8 percent capital adequacy ratio benchmark. Hong Kang banks average more than double this ratio, with 17.5 percent. Hang Seng Bank, the special administrative region's largest listed bank, had a capital adequacy ratio of 24.4 percent at the end of May.

The HKMA has proposed raising the minimum capital adequacy level from its current 8 percent to a level of 10 percent to 12 percent. None of Hong Kong's lister banks will be affected by this move, since their ratios are aready much higher. The move is intended to pave the way kward consolidation of banks in the future and will draw the attention of international investors to the strength of Fong Kong's banks, according to analysts.

Standing up to the test

At least one Hong Kong bank was tested by the plunmeting confidence battering banking systems in other Asian countries this year. In October, customers lined up to withdraw their deposits from the International Bank of the first to recover.

Asia in Hong Kong after rumors about the bank circulated. It conducted business as usual, and the stream of anxious customers tailed off the next day. While the rumors turned out not to be correct and the bank had the liquidity to

Kong banks are still making money so far this vendespite more difficult operating conditions," Mr. Case told a meeting of international bankers a year after the Asian they were prepared to react to financial jitters.

Prudent lending policies and historically low loan default rates have insulated Hong Kong from banking turmoil in Asia. Overdue loans rose in the first quarter of 1998. Even after the increase, the total amount of overdue loans was less than 2 percent of banks' total loans. This is moderate by international standards, and very low by regional standards.

Low rate of nonperforming loans

Residential property loans are an important indicator of bank strength and often signal underlying problems in the economy. Hong Kong banks' mortgage portfolios included only 0.3 percent of nonperforming loans at the end of March. Historically, homeowners in Hong Kong have defaulted on mortgages at very low rates, preferring to borrow money from family or personal sources rather than run the risk of losing residential property. Consensus suggests that this trend will remain dominant in the residential property market.

While Hong Kong banks are strong and well-managed, the Hong Kong economy remains open to regional turmoil in Asia. A slumping economy may weaken bank profitability, but, according to Mr. Carse, it will not affect the underlying fundamentals of Hong Kong banks severely.

"Tell me what's going to happen elsewhere, and I'll tell you what will happen in Hong Kong," says Ian Perkins, chief economist at the Hong Kong General Chamber of Commerce. "It's an open economy, and it is affected very much by what happens outside."

This flexibility and openness mean that the special administrative region will feel the pain of a regional downturn first, but also that the economy will be among the first to recover.

RED CHIPS BIDE TIME

What gots down must come up - in the view of some market specialists.

land Chinese companies registered and listed in Hong Kong were sure-wins. Clerks quit their jobs, university students skipped lessons, housewives neglected dooking dinner, all to become stock market investors.

No more. Since the red chip index's record high of 4,111 last year, based on expectations of further economic reforms by the Chinese government, it has been nosediving, reaching the year's low of 964.5 in January amid fears that regional currency devaluations would affect the mainland's

Despite negative market sentiment, however, some analysis say that red chips have been oversold. If the Chinese economy proves to be in better shape than the most pessimistic predictions portend, the market may soon see investors returning to the red chip shares, especially the well-es-tablished and powerful ones.

"Red chip prices have been pushed down by persistent selling, and I think most of the selling has been done," says Howard Gorges of South China Brokerage. "If it turns out that the renminbi does not need to be devalued, we will see the market picking up in the second half of the year."

If this happens, the companies with powerful mainland backup and rich cash reserves will be the first to make a comeback. Some red chips have enough cash to prevent them from having to resort to the bearish market

A recent report by UBS Securities promises to make an asset injection region.

uring the stock market frenzy a year ago, red chips — main-billion in cash, of which more than half could be used to buy assets. Some companies, such as China Food Holdings, Beijing Enterprises, Ng Fung Hong and China Travel, are in net cash positions.

> Hong Kong investors, having experienced the stock market plunge brought about partly by the Southeast Asian financial crisis, are looking at fundamentals and the earning ability of companies instead of only the prospect of asset injections from a mainland parent, as before.

> Asset injection, however, is still a muick and effective way to increase red chips' earning capability. The companies have realized that in order to stir market interest, the injections have to be priced more realistically.

> Recently, China Telecom (Hong Kong) announced the purchase of its parent's mobile phone assets in the eastern province of Jiangsu for \$2.9 billion, a record for a red chip asset injection. Jiangsu is the third-largest mobile phone market in China, with a compounded 95 percent annual growth rate in subscribers over the past three years.

> The purchase will strengthen the company's dominant market position. but it will not be the last asset injection, as its stated strategy promises to buy more cellular assets from its parent China Telecom. Observers say the company is considering other provinces and cities in the booming coastal region.

> China Resources Enterprise, with a policy of buying profitable assets that immediately boost earnings, also

Reinventing

Investors are calling for solid basics.

this year. Shanghai Industrial Holdings, the Hong Kong-listed flagship of the Shanghai municipal government, recorded a 181.7 percent increase in net profit last year, mainly due to newly acquired assets. So far, it has bought six assets worth more than \$1 billion in two acquisitions, with more expected to follow.

Redeployment

Red chip companies are adjusting business strategies. Because of the property market plunge in Hong Kong, CRE plans to diversify and reduce property income to under 30 percent of total profit in a few years, down from last year's 48 percent.

Some other companies, such as China Overseas, are also trying to diversify.

Chinese government statistics show that the mainland's gross domestic product growth in the first quarter was 7.2 percent, while exports grew by 13 percent in the first four months quite a good performance compared with the economic downturn in the

"Hong Kong is a mixture of plenty to see, plenty to do and plenty to buy," says Jemma Moore, airline corporate communications manager. "We are offering special fares and special hotel deals."

Top-flight hotels

Hong Kong has, indisputably, some of the best hotels in the world, where fivestar service is taken to new levels; it is rare to find a business travel magazine poll that does not feature either the Peninsula, Mandarin Oriental, Grand Hyatt, Island Shangri-La or Regent in its top 10 of world excellence.

This summer, many hotels have either dropped their rates - by up to 60 percent - or put together juicy packes to lure tourists. The Peninsula, which celebrates its 70th birthday this year as the undisputed Grand Dame of Hong Kong hotels, has a variety of deals, including the No Frills rate of 2,600 Hong Kong dollars (\$335) for a single or twin room.

Just down bustling Nathan Road, the neon-signed street with electronic stores galore, is the Holiday Inn Golden Mile, where rates start at 789 Hong Kong dollars a night, a price that in-cludes free local phone calls and restaurant discounts.

While the New World hotels are undergoing a name change this month the New World Harbour View will become the Renaissance Harbour View, and the New World Hotel will

become the New World Remissance Hotel — they will offer the same thoroughly modern and spacious accom-

modations as ever to traveler The city's retailers are also pitching in. Hong Kong, already blessed with a superb range of modern shopping malls, will gain another 140 stores and restaurants when the new airport at Chek Lap Kok opens in July

Dim sum is just one of the nany varied culinary options to choose from.

"I love this city; it if the most exciting in all of Asia and also a remarkably safe city," says Richard Feld-man, who chairs the Association of Retailers and Tourism Services. "I think things will get hundred percent better, there are a pt of things in the self.

pipeline. Hong Kong is the New York City of Asia - there are lots of things to do. Hong Kong has also become much more competitive - luxury goods are the cheapest in Asia, and hotel and airline rates are down. It is the best value it has ever been.

Tourism officials are also promoting lesser-visited areas such as the outer islands — reached by a cheap and scenic harbor ferry ride — and the country parks, located only an hour away from downtown.

Classic attractions

But for most tourists, especially firsttimers, it is the spectacle of Hong Kong and Kowloon that they have often flown halfway around the world to see. A ride across the harbor on the Star Ferry, still priced at two American dimes, is the cheapest and quickest way of putting the city into perspective. On the immediate waterfront is the complex gray shape of the Hongkong and Shanghai Bank and the triangular thrust of the Bank of China; above and beyond is The Peak, with its all-embracing views.

The Peak is reached by a thrilling, near-vertical tram ride up the mountain. The mountain itself can be circumnavigated in less than an hour --- a gentle stroll with magnificent views --before exploring the wide shopping and dining options available close to the tram terminal.

A favorite with locals and tourists alike is Café Deco, a cavernous two-tier restaurant that serves dishes ranging from Indian curries to German cheesecake, with a musical background of American jazz. The diversity it dishes up is a distillation of Hong Kong it-

New projects are aimed at maintaining Hong Kong's role as Asia's busiest port.

SHIPPING FORECAST TO INCREASE

Tell past midnight in late spring, the Hanjin Seattle rides easily at anchor in Hong Kong harbor's East now holds 88 percent of HIT, the world's largest privately rides easily at anchor in Hong Kong harbor's East Lamma channel. Along either side, the long booms of seagoing barges pick at its cargo in the glare of floodlights. By morning, the containers will be unloaded, and the ship will begin taking on new cargo before venturing back out to sea.

Scenes like this were repeated more than 43,000 times in the waters around Hong Kong during 1997. This was a 5 percent increase over the number of ships arriving in 1996. Altogether, the port handled more than 14.5 million twentyfoot equivalent units (TEUs), an 8 percent increase over 1996. This meant that Hong Kong remained the world's busiest container port in 1997, edging out Singapore, which handled 14.12 million TEUs in 1997.

While it appears secure in the longer term, the growth of shipping in the special administrative region (SAR) has weakened in the past year because of the financial and currency turnoil buffeting Asian economies. Intra-Asian trade growth slipped from a high of nearly 25 percent growth in 1994 to about 5 percent growth in 1997. Hong Kong's total trade with the rest of Asia grew steadily, at about 15 percent each year, during most of the 1990s. In 1997, its total trade growth slipped to less than 5 percent, according to govemment statistics. In the fourth quarter of 1997, seaborne imports and transshipments increased at a 4 percent rate over the same quarter the previous year.

Strong trade role

Despite weaker growth caused by a slump in intra-Asian trade, the Hong Kong Port Development Board (PDB) forecasts that throughput will grow an average of 5.8 percent during each of the next 10 years. This will be driven by the strength of Hong Kong's trade role. Chris Langford, the outgoing chief executive of the Shekou container terminal port, stresses that Hong Kong's frequency of sailings and shipping line connections as well as its high textile quotas make the SAR more attractive to shippers than ports in China.

In a show of confidence in the port, Hutchison Whampoa spent more than \$130 million in May to increase its stake in

owned container port facility. Hutchison's chairman, Li Kashing, says his group intends to continue increasing its share in the company.

Continued longer-term growth of China trade will drive developments in Hong Kong shipping. Hong Kong's trade now consists largely of re-exports. These are dominated by re-exports to and from the rest of China. In 1997, re-exports comprised more than 85 percent of Hong Kong's trade. In addition, the Beijing government prohibits direct trade with Taiwan, so much of the trade between the two is conducted through Hong Kong.

New facilities

By 2006, Hong Kong should handle 24 million TEUs each year, according to the PDB. To meet this projected demand, the Hong Kong government is building new container and river trade facilities and rationalizing its existing system of

Container terminal 9 (CT9) will begin operating in the early part of the next decade. CT9 will have a designed capacity of 2.9 million TEUs each year. Shortly after CT9 begins handling freight, CT10 through CT13 will begin moving toward completion.

Besides its role as an international shipping port, Hong Kong also handles goods shipped down the Pearl River from Guangdong province. The government plans to complete a new river trade terminal on Stonecutters Island this year to handle the increase in river trade. The facility is planned as a central feature in its efforts to reduce the numbers of containers traveling between China and Hong Kong along the SAR's roads. This will intensify river transportation within the Pearl River delta while reducing congestion on

The government is also pushing for a 1998 completion of its new permanent midstream facility. Now, much of the cargo transshipped through Hong Kong is transferred from feeder vessels to oceangoing vessels in the seas surrounding the SAR. The new midstream facility on Stonecutters Island will increase capacity and speed turnaround times. C.K.

CHEK LAP KOK OPENS ITS DOORS

continued from page I

means to handle 35 million passengers annually, and an ultimate capacity of almost 90 million. Over the past decade, the old Kai Tak Airport, with no room for further expansion, has been struggling to cope with the increasing amount of traffic.

Planners decided to build a new airport from scratch, which meant putting in a whole new road and rail infrastructure to take passengers the 20 miles from outlying Chek Lap Kok to downtown Hong Kong. That, too, is an engineering marvel, which includes the Tsing Ma Bridge, the world's longest road and rail bridge.

The airport railroad, one of the world's fastest and quietest urban systems, will take passengers to the business district of Central in just 23 minutes. For the return journey, the Mass Transit Railway will provide city check-ins, giving passengers more time to spend on last-minute business

Chek Lap Kok will allow more flexible scheduling for international airlines as well as opening up new routes and slots in the currently full Hong Kong daily flight schedule.
Unlike Kai Tak, which had a mid-

night-to-dawn curfew, Chek Lap Kok will operate around the clock.

High Rollers Not Folding In Asia Crisis Le Casino in Malaysia Keeps Drawing Them In

By Thomas Fuller Inskriational Herald Tribune

CENTING HIGHLANDS, Malaysia in Knall Lumpur, down the steep and winding road, there is talk of a regional economic crisis, but someone better tell that to the thousands of cash-carrying, camera-toting visitors to this misty mountain. At one of Southeast Asia's largest

casmo resorts, 6,000 feet (1,820 meters) above the scorching sea-level heat of peninsular Malaysia, the casino floor hums with gamblers from the region.

Mainland Chinese tour groups led by men holding red flags plow through crowds of Southeast Asians playing the

flor machines or sliding chips across velvet-covered tables. "Most of our high rollers are from Thailand and Indonesia," said Mona Tho, a public relations manager at the noted and casino.

Indonesian high rollers? Big-spendng Thais?
Even with their economies flattened

and currencies at historic lows, Thais and Indonesians continue to flock to the Jenting Highlands Resort. They make up the third and fourth largest groups of oreign visitors, after Singaporeans and nainland Chinese.

Tourist destinations across Southeast Asia have been badly hit by the region's 11 months of economic turnoil. Beaches in Bali are as empty as many of Bangkok's five-star hotels. But visitors to the Genting Highlands, the only casino hotel within thousands of kilometers, grew by 14 percent last year. Clearly when recession is in the cards, gambiers put their money on the table. Not so at casinos elsewhere in the begion. On the fringes of the economic crisis, in Australia and Macan, gaming

operations have done poorly.

Analysts say Gening's strength is Malaysia's weakness: A devalued ringgit not only keeps Malaysians at home for their vacations but also lurgs visitors from allower like market of the control of the co from places like mainland China who find the country relatively chesp. Ninety percent of Gesting's 3,800 rooms were full last month, higher than average occupancy for the resort.

Ultimately, however, the company's future images on one precions docu-

Mr. Lim. 80, who presides over a corporate empire that ranges from resorts to palm oil plantations, power plants and cruise ships, has cultivated close relationships with the powers-thatbe. It was his friendship with the country's first prime minister, Tunku Abdul Rahman, that helped clinch the gambling license for the casino. He is also known to be close to the current prime minister.

Hilton to Split Hotels **And Lagging Casinos**

Gaming Business to Become World's Biggest

The Associated Press

BEVERLY HILLS, California -Hilton Hotels Corp. plans to split into separate hotel and casino companies and to buy three properties in Missis-sippi from Grand Casinos Inc. to create the world's largest gambling company.

The split, announced Tuesday, allows Hilton, which has twice failed in the past year to merge with other hotel and casino operators, to free its more successful hotel holdings from its struggling gambling business.

Hilton's new casino company, which has yet to be named, will acquire the three casinos from Grand Casinos for \$650 million and also will assume \$550 million of the Minnetonka, Minnesota-

based company's debt.
Grand Casinos will spin off its business of managing Indian tribes' casinos and other assets to its shareholders as part of the deal.

Hilton stockholders are expected to get one share in each of the gaming and hotel

Ompanies for each share they own. Stephen Bollenbach, Hilton's president and chief executive, will keep his titles and serve as chairman of the new casino company. Arthur Goldberg, president of Hilton's gambling operations. will become the new casino company's president and chief executive.

Grand Casinos' shares closed at \$16.875 Tuesday, down \$1.625, on the New York Stock Exchange. Hilton shares fell \$3.0625 to \$28.4375.

■ Pressure From Shareholders

Andrew Pollack of The New York Times reported earlier from Los

Hilton executives have said in the past that splitting the company would benefit shareholders by freeing the hotel business, which is doing well, from the gambling business, which is under pressure because of a glut of hotel rooms in

Officials and analysts have said that Hilton's stock price has been held back by the company's association with the mbling business.

"I believe the gaming business is kind of the Rodney Dangerfield of the stock market," Mr. Bollenbach told analysts in April. He said that splitting the company was a priority because Hilton's shares were trading at "a conglomerate discount.

Combining Hilton's gaming business with that of Grand Casinos would create a giant with a presence in the nation's three largest gaming markets. The two compa-nies have little overlap, with Hilton strong in Las Vegas and in Atlantic City, New Jersey, while Grand is the largest operator of casinos in Mississippi.

The deal would make the third time a charm for Mr. Bollenbach, who has failed in two previous attempts at mergers and is under shareholder pressure to achieve some deal. "Our shareholders expect us to be a transactional company," he told analysts earlier this year. Yet Hilton failed last year in an at-

tempt to buy ITT Corp., which owned the Sheraton hotel chain and Caesars casinos. ITT was taken over instead by Starwood Hotels and Resorts Trust.

This year, merger talks between Hilton and Circus Circus Enterprises broke down. The companies were negotiating a split of Hilton to be followed by a combination of its gaming business with Circus Circus.

Some analysts have speculated that once Hilton's hotel operations are free from the gaming business, the hotel business could be an acquisition candidate or could make an acquisition on its own.

Rubin Touts Optimism and Safety Nets in Thailand

By Mark Landler New York Times Service

SEOUL - The U.S. Treasury secretary, Rotert Rubin, expressed opti-mism Tuestay that the political leaders of Thailand would be able to marshal public support for the difficult work of reforming their economy.

Mr. Rubin arrived in Seoul late Tues-

day --- the final sop of his six-day, fourcountry tour - aiter a morning of meetings in Bangkok with Prime Minister Chuan Leekpai of Thailand, other senior officials and business executives. Speaking with the prime minister, I

thought they felt they had the public support they needed a proceed on the " said Mr. Rubin in a briefing on path," said Mr. Rubm in a briefing on the flight to Seoul. He added that among Thailand's leaders, "There was a re-

cognition that a sufficient social safety net was important.

Mr. Rubin's visit to Thailand was nearly on the first anniversary of the baht's devalution last July 2. On that day, the government decided to let the baht float freely on the currency markets, a decision that rippled across Southeast Asia and triggered the regionwide currency turnoil.

Mr. Rubin has urged leaders to create adequate "safety nets" on each stop of his trip, which began in Beijing on Friday and ends here Wednesday. With Thailand and its neighbors facing a economic contraction of 5 percent to 10 percent this year, Mr. Rubin is worried that unless people are cushioned from the blow, the dislocation could easily crupt into social unrest.

Mr. Rubin did not visit Indonesia on

than their counterparts in the 1960s.

in 1996.

Still, for all the brave talk, the news industry cannot avoid the sobering reminders of where it stands among news this trip, in part because its capital, Fund say its rescue packages for the Jakarta, was ablaze in riots and arson fires at the time the trip was being planned. But the turmoil there has shadowed Mr. Rubin's journey around the region, serving as a reminder that the Asian crisis is now less about daily fluctuations in the ringgit or the rupiah than about the price of basic staples, such as food and fuel.

"You've got to build a social safety net," said Mari Pangetsu, executive director of the Center for Strategic and International Studies, a research institute in Jakarta. "This is not just an economic issue but a political issue.' Critics of the International Monetary

region have raised the risk of social unrest, with their emphasis on high interest rates, which have stabilized currencies but also choked off credit and brought commercial activity to a near-But Mr. Rubin rejected those cri-

ticisms, saying that "the IMF has not tried to be draconian." He said that the Fund had begun to show more flexibility in fiscal policy, as the economic pain in these countries worsened. In Thailand, for example, it has permitted the government to swing from a budget surplus to a deficit to free up money for new social programs.

Global Private Banking

AT REPUBLIC, MANAGING YOUR ASSETS IS A DIALOGUE, NOT A MONOLOGUE.

In fact, we consider asset management a team effort, with you as the key member of that team. Your particular financial needs, your objectives, help us determine the winning strategy. Our fundamental goal: to protect your capital as we safeguard its purchasing power.

It is a simple principle upon which we base our brand of financial conservatism: private banking built upon rigor, discipline and prudence. This sophisticated conservatism,

vigorously pursued, has created a global private bank of exceptional stability, capable of weathering the roughest storms.

Indeed, Republic's capitalization ratio, on a risk adjusted basis, is twice as great as that required by the world's international banking regulators.

To our way of thinking, it is security as well as return that we must ensure each day. And in the process, to provide a unique quality of service, understanding and discretion.

U.S. to Sell Nuclear Fuel Unit

By Matthew L. Wald New York Times Service

WASHINGTON - The federal government's uranium enrichment business, rooted in the development of the atomic bomb more than half a century ago, is expected to go on sale in the stock market soon.

Federal officials said Monday that they would try_to privatize the United States Enrichment Corp., which provides most of the nuclear fuel used in

the country.

The decision to make an initial public offering of shares United States Enrichment came after the government failed to get an acceptable bid to buy the company, which is widely viewed as an inefficient manufacturer with antiquated technology in a business suffering declining demand.

Although it is unclear whether investors will want to own a business that could not find a buyer, the stock offering is expected to raise as much as \$1.65 billion.

United States Enrichment operates aging factories in Piketon, Ohio, and Paducah, Kentucky, which employ about 5,500 people and had 1997 sales of \$1.6 billion. It is also developing a laser-based enrichment system at laboratories of the Energy Department. The company was once a part of that department.

Some people in the industry said that the Treasury's asking price was very high for an industry with uncertain prospects. Demand for nuclear reactor fuel is low, because fewer nuclear plants have been built than the industry once expected and because of a surplus of enriched uranium.

"The market is characterized by oversupply," said James Cornell, president of Nukem, a German-owned company that is involved in uranium enrichment, fuel fabrication and trad-

The million-dollar question," he added, "is whether United States Enrichment Corp. will be able to raise the kind of money they are looking

INTERNATIONAL HERALD TRIBUNE, WEDNESDAY, JULY 1, 1998

A Slowdown French and U.S. Executives Seek Cooperation Investor's Europe Investor's In Germany

Compiled by One Staff From Desputches

BERLIN — Growth of the German economy will slow next year to 2.1 percent, weakened by a decline of exports to Asia and by continued sluggish domestic demand, the DIW economic systems. research institute forecast Tuesday.

many would grow by 2.6 percent sits year, after 2.2 percent in 1997. The government and most economists hold that growth will be sus-

of the crisis in Asia. cause of the crisis in Asia and slug-ness methods.

gish domestic demand. The institute said that the ecoations will weigh down on Ger- about their broad economic agendas man exports in 1999."

Exports; which are almost the only source of growth in Germany, will grow by more than 10 percent this year, the institute predicted.

"Household consumption re-mains the Achilles' heel of the German economic situation," it said. Noting that consumption had stagnated in 1997, the institute said Rit would increase only slightly to

reflect an increase in incomes. The DIW economic research institute also called for a 4 percent increase in wages. The institute, which is closely linked to labor unions and the opposition Social Democrats, said a strong rise in wages would help bolster domestic demand and balance the current export-led economic expansion.

The proposal flies in the face of advice from government and business leaders urging continued restraint in wage demands.

But the DIW institute's chief

economist, Heiner Flassbeck, said it might be just what was needed to get the economy going.

Separately, Finance Minister
Theo Waigel said Tuesday that the

government would present a "thrifty" 1998-99 budget next week. Speaking at the sidelines of celbrations marking the manguration of the European Central Bank, Mr. Waigel said the budget draft proposed a 0.3 percent increase in (AFP, Reuters)

By Joseph Fitchett

WASHINGTON - In an attempt to steady U.S.-French commercial relations, officials in Washington and Paris are encouraging both countries' business communities to work together to dispel what they see as false images of each other's publicly over trade issues.

In a sign of this new thinking, The institute, however, stood by a Prime Minister Lionel Jospin, a Soforecast that the economy of Ger- cialist, attended the mangural session of a joint council of corporate heads from both countries that has been formed to find common ground.

The start of the French American thined next year despite the effects Business Council coincided with a Jospin visit in June to Washington. But the institute warned that During that visit, Mr. Jospin pubgrowth would be weakened by an licly distanced himself from some mevitable decline of exports be-

The council, which will meet an-The institute said that the eco-nomic crisis in Asia and devalu-tives from both countries for talks

in a globalizing world. The French finance minister, Dominique Strauss-Kahn, has invited the council to meet next year in Paris.

The council's creation underscored the eagerness in Washington and Paris to improve the level of practical understanding between two countries that are quick to scrap

Secretary of State Madeleine Albright told the Washington meeting that "the kind of global gamesmanship of which our diplomatic community so often suspect each other is simply passe, for this high-speed, high-tech world is no longer a zerosum game."

The Clinton administration hopes that French governments, in pursning economic modernization, will avoid using the United States as a

bogeyman. In the U.S. view, it is particularly important to preempt any rise in anti-American attitudes in France —and, by extension, the European Union.

"Such bilateral groups are quite tended the meeting in Washington: normal between the United States Bankers Trust, J.P. Morgan & Co., and its key allies, but it is the first Salomon Smith Barney and Amersomething together at such an in- de France, the central bank, Credit fluential level with the French," a Lyonnais and BNP.

Mr. Mead has also chaired another group, known as the trans-Atlantic business dialogue, which lobbies Washington and European govern-

French executives are conspicuously absent from that group.

In contrast, the new French-American council fits the sensibilities of France's business culture: It is attended only by top executives without staff members, and no formal advocacy is involved.

Prestige is the key, one organizer noted, listing some of the financialsector companies whose chiefs at-

time that we have been able to put ican Express along with the Banque

The impetus for the council came The council bills itself as a private largely from Felix Rohatyn, the U.S. ment banker, Mr. Rohatyn had the connections and credentials to sell the project to corporate heads and political leaders in both Paris and Washington.

Participants, nearly 50 in all, included Vance Coffman of Lockheed Martin, Harry Stonecipher of Boeing, Gerry Greenwald of United Airlines, Bernard Schwartz of Loral Space and Lodewijk de Vink of Warner-Lambert.

Included on the French side were Alain Merieux of Merieux laboratories, Jean-Louis Beffa of Saint Gobain, Bertrand Collomb of Lafarge, Jean-Pierre Rodier of Pechiny, Louis Schweitzer of Renault and Jean-Marie Messier of Vivendi.

Nomura Unit To Buy Thorn

LONDON - Future Rentals PLC, a new company formed by Nomura International PLC, agreed to buy Thorn PLC. Britain's second-biggest rent-to-own appliance business, for £980 million (\$1.63 billion) in

Future Rentals will pay 250 pence per share; a premium of 8.7 percent to Tuesday's clos-

ing price of 230 pence a share. Nomura International has acquired several companies ranging from chains of public houses to housing develop-ments to use their cash flow as the basis for asset-backed se-

curities.

Thorn, spun off from the run-sic company EMI Group PLC in August 1996, has suffered from a switch among U.K. consumers to buying rather than renting appliances. It has also been hurt by the strong pound that has cut overseas income and by classaction lawsuits from U.S. consumer groups who claim its rentand-purchase agreements violate fraud laws.

Bulgaria Plans to Sell 51% of Telecom

Seoul Issues Warning Over **Bank Protests**

SEOUL - A top regulator in South Korea warned Tuesday of possible panic in the troubled financial sector as operations at five banks remained crippled by protests over forced mergers.

"We cannot wait any longer to avoid possible panic in our banking system," said Lee Hun Jae, head of the Financial Supervisory Commis-

Mr. Lee warned bank employees to return to work by midnight Tuesday or face legal action. The police and prosecutors were ordered to prepare for such action.

Bank supervisors said businesses had been paralyzed for two days at 618 branches of the five banks, which were ordered out of business Monday and told to merge with stronger institutions.

Angry staff members crippled computer systems and vanished with keys Monday, when thousands of police officers escorted financial officials into Chung Chong Bank, Daedong Bank, Dongnam Bank, Donghwa Bank and Kyungki

The protests have halted depositrelated services and other essential businesses, triggering a further corporate credit crunch and a delay in settlements of cash, checks and cor-

in closing the banks' businesses. ■ Strike Planned at Hyundai

Hyundai Motor Co., the largest auto manufacturer in South Korea, said Tuesday that a plan to lay off 10 percent of its workers had been accepted by the government, prompting labor unions to call an immediate 24-hour strike, Bloomberg News reported.

The government green light came only after hours of resistance from the Labor Ministry in a bid to control

The move by Hyundai is likely to prompt other large companies to dismiss workers to help cut costs. 'We will stage a full-fledged strike after launching an initial 24hour strike this afternoon," said Kim Kwang Shik, president of Hy-

Very briefly:::

• Shares of News Corp., the Australia-based media giant, rose sharply after the company announced plans to combine its U.S. film, television and sports assets and sell up to 20 percent of the new company to the public as it seeks to raise \$3.5 billion. Shares closed at 13.18 Australian dollars (\$7.98), up 1.03 dollars.

 Compaq Computer Corp. will dismiss 400 production workers in Singapore, 12 percent of its manufacturing work force there, in an effort to meld its business with that of Digital Equipment Corp., which it recently acquired.

• Daewoo Electronics Co. of South Korea said it would build

· Moody's Investors Service formed a joint venture with Korea Investors Service Inc. to expand credit ratings and analysis in the South Korean capital markets.

 Total SA of France will hand over operational control of the Bongkot natural gas field in the Gulf of Thailand to the Thai state-run petroleum authority this week.

• Malaysia's securities regulator said that, because of a credit crunch, it would lift a ban on some of the ways in which companies can raise funds.

China to Keduce Lending Rates

BEDING - China will cut bank lending rates for a third time since October in a bid to bolster sagging economic growth, state television reported.

The government will cut bank lending rates by an average 1.12 percentage point, according to the state

The cuts come as the Chinese economy heads for its slowest growth since 1990. Second-quarter growth is set to fall below 7 percent from the 7.2 percent year-on-year expansion reported during the first three months of 1998.

For Hong Kong's Golden Elite, the Shine Is Off

HONG KONG — Hong Kong's financial elite, who were once in the driver's seat of Asia's boom, are now struggling to survive.

Hong Kong's switch to Chinese China, I've had my share of freebies rule, when the Hang Seng index was on a run past 16,000 points and red of stuff." chip fever was making investors inbefore the handover from Britain.

Wealth is gone. Business market bonuses. stinks," said Anthony Lok, a senior analyst at Indosuez W.I. Carr, summing up the gloomy mood in Hong Kong's financial sector, where pay ing the Asian meltdown. Markets cuts and layoffs have hit hard among across the region began to fall, with the territory's most visible yuppies. currencies fluctuating wildly

REPUBLIC OF BOLIVIA

MINISTRY OF ECONOMIC DEVELOPMENT VICEMINISTRY OF ENERGY AND HYDROCARBONS

NVITATION TO THE INTERNATIONAL PUBLIC NOMINATION AND BIDDING FOR AVAILABLE AREAS FOR HYDROCARBONS EXPLORATION AND **DEVELOPMENT**

The Viceministry of Energy and Hydrocarbons of Bolivia responsible for the nomination of available areas for hydrocarbons exploration and development, as established in the Hydrocarbons Law Nº 1689 of April 30, 1996, its regulations and other applicable legal norms, invites all companies interested in participating in the International Public Nomination and Bidding for Available Areas for Hydrocarbons Exploration and Development.

The International Public Nomination, to be held form July 15 to 25, allows national and international companies to nominate areas with hydrocarbons potential. It is estimated that approximately 611,000 Km of the Bolivian territory (55.6%) have hydrocarbons potential. Of that total, 124,276.8 Km² are currently under contract and 486,723.2 Km² have been defined as available areas.

All parties interested in nominating areas must present, to the Viceministry of Energy and Hydrocarbons (VMEH), a written petition for each area nominated and pay the fee established in the regulation. For further details, please contact VMEH at the address below.

The International Public Bidding, to be held on September 15, aims to attract potential investors for the signing of Joint Venture Contracts for exploration and development of hydrocarbons, in the areas nominated in July, which will be valid for forty years. Any company, wether it has nominated areas or not, can participate in the bidding process.

PAPER: With Surge in Classified Ads, Industry Regains Health

percent. This spring, it was 31 percent. Even in the over-50 group, readership figures are down to 63 percent, from

about 74 percent in 1990. national ads, newspapers are a cumbersome and expensive vehicle. Although newspaper revenue from national advertisers like airlines and Hollywood studios are up over the decade, "for most nationadvertisers, their first choice is television - and that's getting more so," said Stacey Lippman, media director at the advertising agency TBWA Chiat/Day,

which is owned by the Omnicom Group. The newspaper industry's standard response is that its readers are a relatively upscale demographic group compared with radio or television audiences. The Pew survey bears this out: 60 perent of those surveyed with family incomes of \$75,000 annually read newspapers; 58 percent watched television news. College graduates were also slightly more likely to get their news from newspapers.

The economic downturn of the early 1990s coincided with buyouts among retailers which then had no excess cash for advertising - and competition from companies selling newspaper inserts to supermarkets and other local advertisers. The bottom line: at least 10 percent of display advertising revenues was lost

and have not returned.

Just when things might have started to move back up, newsprint prices rose by almost 70 percent, peaking in 1995 and 1996, and forcing another round of belt-tightening and price increases at

But if 1987 and 1988 were the golden years for the industry, 1997 was at least gold-plated. Total revenue, according to the figures compiled by the Newspaper Association of America, were \$51.4 billion - \$41.3 billion (up 11.3 percent over 1996) from advertising, and \$10.1 billion (up about 1 percent) om circulation.

The overall revenue improvement is less dramatic

Continued from Page 13 account. In real dollars, 1997 1994 through 1996, when advertising. "Classifieds defcirculation revenues lagged there were widespread price initely are driving the revenue in the 21-to-35 age group, 67 more than 15 percent behind increases, overall circulation increases that we're seeing," percent of those surveyed had their 1987 high. AUSTRIA'S EU AGENDA

A Presidency for A UNITED EUROPE

'Austria is uniquely qualified to take on the current challenges facing the European Union.

oday. Austria takes on one of the major political challenges that Europe has to offer: the presidency of the European Union. The subjects to be decided are of crucial importance to the future of the Union. They include final preparations for the advent of the euro, which takes effect on Jan. 1. 1999, the enlargement of the Union, and the finalization of Agenda 2000 and the EU's plan to reduce

Agenda 2000 alone will affect every country and business sector in the EU. It will establish, among many other items, which countries are eligible for what funds, how decisions are reached in the Union, and what the terms of accession will be for Hungary, Poland, the Czech Republic, Slovenia, Estonia and Cyprus and for the candidates of the "second wave" of expansion.

Says Austrian Chancellor Viktor Klima: "We are a relatively young member of the EU, and we have to shape during our presidency no less than two of the most exciting, most historic processes ever undertaken by the Union: giving it a greater depth and breadth. It's a tremendous challenge.

Extensive preparations

Austria's preparations for the presidency have been extensive and high-paced. Its ministries have been participating in the organization of 2,300 meetings of 330 EU working groups, which are setting the agendas for 40 ministry-level conferences, a number of which will be held in Austria.

The final results of these meetings and conferences must be ready for consideration by Dec. 11, the first day of the European Council summit in Vienna. The Council, made up of the heads of states of EU member countries, will face a deadline of its own.

By the time the members convene for their group pholograph at the conclusion of the summit on Dec. 12, they are to have achieved "significant" progress on these issues, plus other crucial items such as harmonizing European tax codes.

If Austria is facing these Europe-wide challenges with a remarkable sense of calm and purpose, it is because the country has already tackled many of them on the national level.

Working with all sectors of society, Austria's government has implemented successful programs to reduce unemployment. At the end of May, the country's unemployment rate was 6.7 percent, according to the national labor office, and 4.6 percent according to the EU. Austria is also creating jobs: At the end of April, the number of positions available was up 26 percent over the previous year.

Itself part of the EU's last wave of expansion in 1995, Austria has already solved many of the economic problems that may arise from the integration of five low-wage, highgrowth Central and Eastern European countries into the Union. Austria has developed an excellent working relationship with its neighbors to the east, reflected by the string of binational business parks and joint ventures lining the country's borders.

In addition, says Foreign Minister Wolfgang Schüssel, "We know the mentalities of the accession candidates better."

Many countries are facing the advent of the euro with trepidation. Not Austria. The country has already gone through the process of internationalizing its currency, the schilling, which, as Finance Minister Rudolf Edlinger points out, "has been linked to the Deutsche mark for two decades [since 1975].*

The Austrian presidency will also continue the work of its predecessors in attempting to curb the flow of drugs, weapons and other illegal goods into the EU. Austria shares borders with eight countries, four of them in Central and Eastern Europe. Because of this geographical situation. Austria already has a great stock of expertise to share with the EU on effective measures for dealing with these problems.

Building consensus

Austria's penchant for consensus-building explains the high degree of unanimity in carrying out these measures. This unanimity was also expressed in the strong 66 percent of Austrians voting for the country's accession to the EU. It is also reflected in the lack of strikes or other forms of protest accompanying this and other major transformations of the country's political and economic life.

"Austria has, in fact, the second lowest rate of strikes in the world. This rate is one of the best indicators of how good working relationships are between our companies' management and employees," says Hannes Famileitner, minister of economic affairs.

This tradition of finding consensus will stand Austria in good stead during the "presidential months" to come. Says Mr. Klima: "Our job is to serve as trusted mediators. We're going to carry it out with professionalism and dedication. We want to get Europe into fighting shape. That's going to be the motto of our presidency."

don't in Burgenland in the east to Feldkirch in Vorarlberg in the west.

> The provinces are fully implicated in the presidency not only by hosting the events but also because of their own ties with their neighbors to the east and west, north and south. High-tech Carinthia has strong links with Slovenia and Italy, thanks to the EU's INTER-REG program. Burgenlandenjoys strong business ties with Hungary. Upper and Lower Austria are both home to crossborder projects with the Czech Republic, while Salzburg has a trans-border technology center - as well as other links -with Bavaria. Styria. with its strong automotive industry cluster, is a key contact point for southeastern Europe. Hightech Tyrol has a wide range of partnerships with Italy and Bavaria while Vorarlberg maintains extensive working relationships with the German states of Bavaria and Baden-

Württemberg and the Swiss

canton of St. Gallen. D.H.

KEY TOPICS ON THE AGENDA

In addition to the pivotal themes of unemployment and the euro, which will inevitably dominate in the latter half of 1998, a wide range of other topics will be on the agenda during Austria's presidency.

- As head of state, President Thomas Klestil is eager to send a positive signal to neighboring countries to the east regarding EU expansion.
- · He will be seconded by State Secretary Peter Wittmann, who will concentrate on the cultural aspects of integration.
- · Agriculture Minister Wilhelm Molterer is eager to settle the future of farm subsidies under Agenda 2000.
- Gene technology and consumer protection are the joint concerns of Health Minister Lore Hostasch and Woman's Equality Minister Barbara Prammer.
- standards is a high priority for Environmental Affairs Minister Martin Bartenstein. • Protecting the environment is also a matter in which

• The establishment of Continent-wide environmental

- Transport Minister Caspar Einem could provide valuable support, if his plans for stemming heavily polluting road freight transit through Austria are implemented. • The ease of frontier crossing, especially for re-
- searchers, is the key to Education Minister Elisabeth Gehrer's vision of a united Europe.
- Pan-European solidarity in coping with the growing refugee problem will be called for by Interior Minister Karl

WORLD ROUNDUP

A Joint U.S. Bid For 2012 Games?

OLYMPICS Washington and Baltimore will make an unprecedented joint bid for the 2012 Olympic Games, organizers were set to anmounce late Tuesday, hoping to resolve a bitter behind-the-scenes battle over the right to lead an effort that could bring billions of dollars

Washington's mayor, Marion Barry, and Baltimore's mayor, Kurt Schmoke, each will appoint as many as five board members to join a dozen executives from some of the region's largest companies on a new consolidated organizing committee.

Houston, New York and Seattle also are expected to be contenders for the 2012 Games along with in-ternational bidders, including Cairo, Johannesburg and Beijing. (WP)

King Trial Winds Down

BOXING The trial of boxing promoter Don King for insurance fraud has dragged on for 10 weeks, with closing arguments set to resume. Tuesday. The prosecutor, Assistant U.S. Attorney Christine Chung, accused King of lying to Lloyd's of London to force them to pay \$350,000 in nonexistent training expenses for a 1991 Cesar Chavez fight hat was canceled when the boxer cut his face while sparring.

Surgery Sidelines Klesko

NASEBALL Left fielder Ryan Klerko, one of the Atlanta Braves' hottest hitters in June, had his appendix removed Monday and will be out for a week to 10 days. Klesko was thatting .285 with 13 homers and 47 RBIs. (AP)

Dallals Signs German Star

BASICETBALL The German bas-ketball star Dirk Nowitzki said Tuesday the would play for the Dallas Mavericks next season rather

than continuing to play in Europe.
The 6-foot-11 (2.11-meter), 237pound (108-kilograms) Nowitzki
faced a Tuesday deadline to decide
whether he would play for the Mavericks. Negotiations would be barred after midnight because of an NBA lockout. The Mavericks have agreed to let Nowitzki take a leave to aid the German squad's effort to qualify for the next Olympics. (AP)

Frank Scott Dies at 80

Frank Scott, 80, the first agent to negotiate endorsements and public appearance deals for baseball play-

Livingston, New Jersey.

His clients included Mickey
Mantle, Yogi Berra, Roger Maris,
Joe DiMaggio, Willie Mays, Henry
Aaron and Duke Snider.

In the days before free agency, when most players negotiated their own contracts. Scott made money for his clients through off-the-field endeavors. He was later an executive with the Major League Baseball Players Association.

Martina Hingis, who beat Tamarine Tanasugarn of Thailand on Tuesday, 6-3, 6-2. and if she would be coming in all the day morning and did her best to quarterfinal in that half of the draw.

Hingis and Williams Advance

Sampras, Krajicek and Ivanisevic Also Go to Quarterfinals

By Jennifer Frey Washington Post Service

WIMBLEDON, England - Martina Hingis crawled out of bed at 8 A.M., far from her usual wakeup tory only to find that his quarterfinal hour, and hustled herself out to the All England Club, still rubbing sleep from her eyes. She is not a fan of morning matches — not that her need to yawn hampered her play. After a bumpy beginning here, Hingis is cruising toward what she hopes will be her second straight title, and she hit no bumps in her fourth-round match Tuesday.

then ceded Court 2 to her teenage rival, Venus Williams. And Williams - who could meet Hingis in the semis here — steamrolled over Spain's Virginia Ruano Pascual, who helped knock her sister, Serena, out of Philippoussis tomorrow. He's got one the draw the previous day. Williams of the biggest serves on the tour, beat Pascual, 6-3, 6-1, to advance to Anyone that can serve big — Krajicek her third Grand Slam quarterfinal in as many tournaments this year.

Open champion, Arantxa Sanchez Vivictor over 10th-seeded Irina Spirlea. 'I guess I'm happier that Venus is really not a serve and volleyer," said

Novotna, a serve and volleyer herself, matches on the stadium courts, but Lindsay Davenport and No. 16 Nuthbecause she really has a buge serve, she trotted out to Court 2 late Tues- alie Tauziat meet in the other

time, it would be rather difficult." Men's fourth-round action Tuesday also produced an interesting quarterfinal matchup: No. 1 Pete Sampras sailed to a straight-set vic-

And Williams, the seventh seed here, ing Monday winners No. 10 Tim plays No. 3 Jana Novotna, a 6-2, 6-3 Henman and No. 3 Petr Korda, who will square off Wednesday on Centre

Hingis has played all her early

remain there as briefly as possible. After fighting her way through the first sets of both her first and second-round matches, she didn't let a little sleepiness keep her from tory only to find that his quarterfinal throwing Tanasugarn off-balance opponent will be Mark Philip from the start. And she finished in

"I was still sleeping, you know, in

practice," said Hingis. Despite her status as the top seed and defending champion. Hingis has been overshadowed by both the comeback attempt of Steffi Graf who lost here last Friday - and the In two top-quality fourth-round dynamic Williams sisters, who have matchups, Hingis defeated Tamarine Ivanisevic — also moved on to the so captured the interest of the sportanasugarn of Thailand, 6-3, 6-2, quarters, Ivanisevic with a 7-6 (7-5); ing public that the British Broadcasting Corporation shunned the feat tursed Centre and Court 1 matches earlier Tuesday and instead aircli Venus live, from Court 2. (They also

aired Hingis's match).
"I'm quite happy," Hingis saids shrugging. "I don't think I have q bad image out there."

Hingis tabled Monica Seles as the player to watch in the women's draw. and she's certainly the player Hingis most fears. Seles, who crushed Hingis in the French Open semifinals. appears even fitter here at Wimbledon and has had next to no trouble in the first four rounds.

She plays Natasha Zvereva the only unseeded quarterfinalist, but if dangerous player who already upset. Graf here last Wednesday, No. 2

NBA Locks Out Players, but the Crunch Won't Come Until Fall

OS ANGELES - Labor Day came early in the National Basketball Association when lockout starting Tuesday night at midnight.

If this sounds ominous, it means so little immediately that basketball people are celebrating it as the start of their summer vacations.

Said one general manager, laughing, before Stern's conference call Monday, "I've already got

my flips-flops on." So, without further ado, our guide to the Summer of Labor: There will be no contact between teams and

players for the duration. Teams can't sign players.

put them on summer-league teams or work them Three years ago, Stern locked out the players for the first time and shook them up. This time, though.

the players say they're prepared. Stern said Monday it would take about four weeks after an agreement was reached for teams to

sign free agents and conduct camps. They can probably do it in two. Since the season

s supposed to open on Nov. 1, that suggests mid-October as the first real deadline. The league has asked for a hard salary cap, with the Larry Bird exception thrown out. This is the rule that allows teams to re-sign their own veteran free agents regardless of salary cap constraints. The league has proposed phasing out the excep-tion. The players want to retain the rule in its

Since that has been a part of all deals since the cap was introduced in 1984, the union reasonably terms this a "giveback."

The league counters in a conciliatory tone, at least in press conferences, that this isn't a giveback, since it is not seeking to cut the revenue allotted for the players, currently at \$1 billion, or

about \$2.5 million per union member. While football and baseball took a series of strikes that ran the gamut from "bad PR" to ruinous," the NBA avoided trouble because it

Before the onset of prosperity in the '80s, professional baskerball was a hand-to-mouth existence and couldn't afford strikes.

The union was battle-tested, having won its purs in a single action, a threatened strike of the 1964 All-Star game in Boston, led by Tom Heinsohn and Bob Cousy. After much shouting, the players got their pension plan, and after that, ownership didn't mess with them.

The NBA commissioners Walter Kennedy, Larry O'Brien and Stern forged such a good working relationship with union head Larry Fleischer that they were able to take a revolutionary step together with the first salary cap in 1984.

Fleischer's death, however, left a vacuum at the top of the union. Charles Grantham, who succeeded him, was sacked during the 1995 negotiations for expense-account irregularities. His successor, Simon Gourdine, was not only a former NBA deputy commissioner but politically tonedeaf enough to try an end run around the powerful agents' advisory committee. .

The agents overturned the deal. Stern gave a little more, Gourdine agreed anew, and the agents

Vantage Point/MARK HEISLER

struck again, trying to decertify the union. That move failed, and the revised deal was adopted but with players grumbling that they'd been run over again.

In fact, it didn't turn out to be an "owners' deal" or a "players' deal" but a "stars' deal" - and the stars and their agents are now in charge. Stern, who cannot have missed the union's

hostile turn, knows that he's putting the league's 100 percent labor record in jeopardy. This suggests
— and league sources agree — that Stern isn't
worried about his old record, and isn't bluffing.

The players insist they aren't, either."
"There's not a lot of middle ground now," the union's spokesman, Dan Wasserman, said Mon-

day from New York. Stern isn't known for getting himself into things

he hasn't thought through. If recent strikes suggest anything, it was that a league could be forgiven — as the National Hockey League was, by and large — if it took a strike early but salvaged its season and playoffs. If

there was one thing to avoid, it was to let a union gain control of the playoffs - as happened in Stem remains a power, perhaps the last powerful commissioner, so this will be a test for him.

Sources suggest he's still riding tall in the saddle, his owners falling in line behind him, even if some don't like the idea.

The players are like an army that hasn't had to fight for a while - or in these players' cases, in their lifetimes - who knows?

Nothing will tell on either side until each faces the prospect of personal financial loss.

Stern sits at the head of a well-oiled PR machine and can enforce at least the appearance of solidarity, as he has done before, amounting a SC million fine for anyone who says something he

The players have interests in common, but they also have 400 families to feed. There are 191 free agents. There are 272 players with gagranteed contracts. Even assuming 13 players to a team—most stash someone on the injured list—that leaves only 105 openings.

That's 191 players, eager to find out where, or if, they'll be playing next season. That's 191, union members who may develop their own agendas.

Their problem isn't the owners, It's their own stars, who are taking a disproportionate share of Stern has a good talking point when he notes that

one solution would be to mail a check for \$1 billion to the union and let the players divide it up: themselves. Beware when smooth-talking lawyers like Sterr

start quoting numbers from books they wan't lef

If all those owners are in such direstraits, why do they keep bidding coaches' pay up and up and

Take Gaston, the refusenik who keeps asking why his fellow owners don't just draw a line in the sand the way he does when it comes to paying players those outlandish salaries.

Gaston recently hired Rick Pitino for \$8 million a year, by far the most ever paid for a coach in the history of sport.

McGwire Tops NL All-Star Balloting

Mark McGwire of the St. Louis Cardinals, who is leading the majors with 36 homers, was the top vote-getter in the National League for the July 7 All-Star game, the league announced Monday.

McGwire was the fans' choice to start for the sixth time overall, the first five coming when he played for Oakland. think it's going to be great," the Sugger said over the weekend. "It's been great that I've been able to play in the All-Star game so many years for the American League, and now I get to do it

for the National League."
Sammy Sosa, whose 19 home runs in June set a major league record for most homers in any month, has to hope he's picked as a reserve for the game, which will be played at Coors Field at Denver. The Chicago Cubs star, who has hit 32 homers, finished sixth among out-

fielders and was only 12th overall in the New York Mets catcher Mike Piazza,

the NL's top vote-getter the last two

Strawberry in 1989.

Rockies will start in the outfield, along with San Diego's Tony Gwynn and San Francisco's Barry Bonds. Atlanta third baseman Chipper Jones,

Larry Walker of the host Colorudo

Atlanta shortstop Walt Weiss and Houston second baseman Craig Biggio join McGwire in the NL's starting infield. McGwire, expected to highlight the

home-run derby a day before the game. received 3,377,145 votes and finished far ahead of runner-up Andres Galarraga (880,142) of Atlanta.

Piazza was second overall in NL voting at 2,731,079. Charles Johnson (811,813), who took Piazza's place behind the plate in Los Angeles, was

In close votes, Weiss earned his first 997,591. Jones (1,574,512) beat out

years while with Los Angeles, earned another starting spot. He was the first Mets player picked to start since Darryl Bonds (1,897,156) and Walker (1.744,949) finished ahead of Colorado's Dante Bichette (1,213,700), Houston's Moises Alou (1.205,369)

and Sosa (1,112,234). Gwynn will be making his 11th start in the All-Star game, while it will be the eighth appearance for Bonds and the third for Walker. The best finish for any player from

the stripped-down World Series cham-pion Florida Marlins was eighth by shortstop Edgar Renteria. Florida's Jim Leyland will manage the NL team. Nearly six years after becoming acting commissioner, Bud Selig is set to

take the job on a permanent basis when

owners meet July 9 at Chicago. Electing the commissioner is the top item for the special meeting, which was confirmed by an NL owner who spoke All-Star appearance by edging Cincin-nati's Barry Larkin, 1.159.960 to also are expected to finalize the format of the 1999 schedule at the session.

The Cardinals slugger Mark McGwire, who leads the major leagues with home runs, waving to fans.

Play Ball' Isn't Cried First Time Since '73

The Associated Press

Major league baseball took a rare day off Monday, with not a single team in action. It was the first time since April 30, 1973 — aside from All-Star breaks and labor stoppages --- that there had been

a day during a season without any games. 'I was stunned when I realized it hadn't happened in 25 years," said Seymour Siwoff of the Elias Sports Bureau, which compiles the big league statistics. "I think it's just a matter of pure coincidence."

Had there been a rainout during the recent interleague series, it could have been made up Monday. But there were none.

"It was a wonderful rain protection date, but it wasn't scheduled that way," said Katy Feeney, vice president of the National League. "With interleague play, it just

Every team in the majors was scheduled to play each day last week, and Monday became a break for all of

All 30 teams were scheduled to play Tuesday, with 14. interleague games plus a National League game between the Arizona Diamondbacks and the Chicago Citis.

World Cup

Police Officer Said To Be Improving

A French policeman in a coma since being attacked by German soccer hooligans after a June 17 World Cup match is showing signs of improvement, doctors said Tues-

Doctors treating Daniel Nivel, 14, said he was reacting to stimulation. They said there were signs he was gradually coming out of the coma, although they stressed that his condition was still critical.

Nivel was hit on the head with an iron bar minutes after a World Cup match between Germany and Yugoslavia, when groups of neo-Nazis rampaged through Lens, a town in northern France. Two Germans have been placed under formal investigation for attempted murder.

Germans Tuned In

More than 24 million German viewers watched their team beat Mexico, 2-1, to earn a quarterfinal place in the World Cup, public broadcaster ZDF said Tuesday.

The match posted a market share of 83 percent, rising to 85:8 percent in the second half. Only Germany's comeback 2-2 draw with Yugoslavia last week produced higher overall ratings, ZDF said.

What's the World Cup?

Four years after the World Cup was played in the United States, just 52 percent of adults in the United States knew the World Cup is a soccer competition and only 25 percent were aware it is being played in France, according to a survey released Tuesday by Lou Harris & Associates.

Just 19 percent of Americans have watched a World Cup game, according to the survey.

The poll was conducted from June 17 to 22 among 1,000 adults and has an error margin of 3 percent. (AP)

Matthaeus Tops Record

Lothar Matthaeus of Germany became the World Cup record holder for number of matches played with 24 as Germany defeated Mexico, 2-1, Matthaeus has 15 victories, six draws and three losses in his cup career.

Platini Calls the Tune

Love it or loathe it, there's one innovation you can't get away from at this World Cup: loud electronic music in the stadiums after every

And if you don't like it, you can blame Michel Platini.

FIFA revealed that the blaring chords are the brainchild of the former French captain and head of the organizing committee.

"It's a personal choice of Michel Platini," said Keith Cooper, a spokesman. "Some people like it; some don't."

(Reuters)

Saudis Hire New Coach

Saudi Arabia, eliminated from the World Cup in the first round, has hired the German trainer Otto Pfister as coach, the Saudi Football Federation said Tuesday. (Reuters)

WORLD CUP BRIEFS Tiny Croatia Now Makes a Big Mark in Soccer, Too

By Christopher Clarey International Herald Tribune

BORDEAUX - Croatia does not take up much space on the map of Europe. It is a scenic sliver of land on the Dalmatian coast attached to a slightly bigger chunk inland with the capital, Zagreb, as its hub. But Croatia is big enough to provide a homeland to one of the planet's better soccer tearns, and on Tuesday that team advanced to the quarterfinals in its first World Cup with a 1-0 victory over Romania that was more emotional than sensational.

The lone goal of the afternoon came on a penalty kick from Davor Suker in

CROATIA 1, ROMANIA O

the second minute of injury time in the first half.

"Never has a country as small as Croatia come up with a result like we did today," said the Croatian coach, Miroslav Blazevic, whose team will said the Croatian coach, face Germany in the quarterfinals on Saturday in Lyon.

Sports and marketing have become inextricably intertwined in this bottomline, celebrity-driven era, but nations have been using sports as a marketing tool for centuries, and Croatia, a country of about 4.7 million people that split from Yugoslavia seven years ago, has no shortage of athletic ambassadors.

It won the gold medal in team hand-ball at the 1996 Summer Olympics; its basketball players, including Toni Kukoc and Dino Radja, have played and played well in the NBA. Tennis player Iva Majoli won the French Open, and Goran Ivanisevic would already have won Wimbledon if his powers of concentration had even come close to the power of his serve.

Now, two years after reaching the quarterfinals of the European championships, it is the soccer team's moment to take another star turn, and Blazevic, the bespectacled, chain-smoking friend of the Croatian president, Franjo Tudjman, clearly was delighted to have ex-

Romania's goalkeeper, Bogdan Stelea, center, blocking the ball Tuesday in front of Croatia's Davor Suker, left.

"It isn't just sport; there are political repercussions, too," he said.

Before this match, maybe 5 percent of the people knew Croatia. Now, maybe 15 percent know. So of course that is important to our country.

It has been a World Cup of many matches and precious few surprises. The traditional soccer powers have had their way with the parvenues.

Croatia does not quite qualify as an underdog — not with players like Suker, captain Zvonimir Boban and Robert Jami — but it is one of two quarterfi-

nalists, along with Denmark, who have had at least a little fun at the expense of the pecking order in France.

Before this event began, the Croats' former countrymen, the Yugoslavs, were the team that was widely considered the bigger threat from the Bal-

The Croatians had played well only in patches during World Cup qualifying, drawing with Greece and Slovenia and losing to Denmark, 3-1, which now seems a lot less disturbing in light of the Danes' success here. Croatia's chances

were also hurt by a knee injury to the team's star striker, Alen Boksic, who

had to be dropped from the team. "We really miss Alen," Blazevic said before this game and after his team lost to Argentina, 1-0, in its final group

But Croatia still has Suker, its other world-class striker who is fresh and in fine fettle after spending much of last season on the bench at Real Madrid.

When Suker got his chance to take a penalty kick in the 47th minute, he did

Suker had helped earn his penalty kick by letting a pass slip through his legs to teammate Aljosa Asanovic, who was being marked in the penalty area by Romanian midfielder Gabriel Popescu. There was contact:

Asanovic tumbled to the grass, and referee Javier Alberto Castrilli of Argentina pointed to the penalty mar-Suker quickly converted the penalty kick, but his celebration was cut short because one of his teammates had run into the box too early. The kick had to be retaken, but the 30-year-old Suker calmly put the ball past goalkeeper Bogdan Stela again in the same lower right

corner of the goal. Stelea would not be beaten again, and if not for his fine play, he and his oddly muted teammates would have lost by a lot more than one goal. The Romanians and their creative captain, Gheorge Hagi, whose sobriquet is "the Maradona of the Carpathians," were surprise quarterfinalists in the last

World Cup. But despite coach Anghel Iordanescu's sage decision to mix younger players like striker Adrian Ilie with the veterans this year, Romania often looked unsettled, even unenthusiastic, on Tuesday.

After dying their hair a toxic shade of yellow after defeating England in their second group match, they did not win another match: drawing with Tunisia and losing to Croatia, and when the Hagi era ended, Hagi was no longer on the field, having been replaced in the 57th minute with what he explained was a sore groin.

It is unclear whether the 32-year-old Hagi has played his last for Romania. But lordanescu, the army general

with the tactical mind, is definitely leaving. He already has signed a contract to coach Greece. While he heads for Athens, the Croatians will head for Lyon and a rematch with the German team that defeated them in the quarterfinals of the last European championship.

"The Germans are our friends."
Blazevic said. "And as everyone knows, there is no greater pleasure in sport than to beat your friends."

Soccer Victory Spotlights and Helps Heal Dutch Racial Divide

AINT ETIENNE, France — Orange is the color of the Dutch, but it is the rediscovery of black and white that has brought the Netherlands

toward full bloom in the World Cup. On Monday in Toulouse, very late into the remaining seconds of a technical stalemate between the Netherlands and Yugoslavia, Edgar Davids fired in a shot from 18 meters that, with deviation off a defender, became his very first goal for his country. There was luck in the strike, but reward for Davids' tireless energy and his opportunism.

Yugoslavia had no time to equalize, and now retreats to Belgrade or wherever the players have made their home. The Netherlands advances to the quarterfinals, and onward toward a new harmony. In the immediate aftermath of its victory came a melee of embraces for Davids, from as many players as could get to him, suggesting that the racial divide within Dutch soccer is capable of being healed.

We should share the relief of that. For vhen, two years ago at Euro 96, the Netherlands team broke apart, when Davids skulked away from the camp muttering about white players with their faces in the backside of the coach, he brought to the surface a rift that was not Vantage Point/Rob Hughes

between established senior players and the new, irreverent, young ones.

The failure of the Dutch to fulfill their

obvious fine technique and their fluent adaptability was blamed on what was termed the "cable"— the bond between black players of Surinamese descent. Somehow the blending that makes Brazil so beautifully color-blind, so importantly integrated, had become strained in the Netherlands.

Somehow the uplifting contributions of Ruud Gullit and Frank Rijkaard, adding spontaneity and smoothness to the Dutch Oranje was threatened as a quirk of history rather than a path to

Somehow, the essence of soccer as a team game that crosses the boundaries of race, color and creed was endangered in a country where liberty is so cher-

There have been many advisers close to Guus Hiddink, the coach in 1996 and the coach today, who implored him to make life easier on himself, to excommunicate Davids and his midfield pal, Clarence Seedorf, from the group.

To omit, too, Patrick Kluivert, the striker whose misdemeanors off the only racist but also born of the conflict field trouble the law and the conscience

of large numbers of his kinfolk who look for a better example to set before their children.

Hiddink, however, is a widely traveled man. His time as a player in the Netherlands and the United States has. schooled him as a quietly determined fellow, one who seeks a way to blend the talents of players and to try to be tolerant toward the headaches they cause him and the risks inherent in performing duties more akin to social worker than

team trainer. He pursued and persuaded Davids to come back to the Dutch dressing room. He counseled that, though 25, Davids is

irrepressibly boyish in his makeup. Many an effective player embodies the spirit of childishness in the body of manhood. It is sometimes the quality that sustains an athlete, makes him strive for that unexpected moment, strike out for a goal in injury time even though he has never scored for the team before.

months at Juventus where — running, running, forever running — he rejuvenated the Italian club to another Serie

Davids is a player reborn after his few

Hiddink saw this, and told his senior players that this was energy they could

use, could channel for the benefit of a solitary confinement of a soccer coach's World Cup challenge.

On Monday, Davids answered that. With Seedorf at his side, he was the heart of the Dutch midfield, the cell of lynamism that gradually wore down a ugoslav side of equal technical ability. "It's a matter of quality," Hiddink had said before the tournament. "Davids has it, and that's why he's back." The impress on those whose position would

normally be guaranteed that their work will become enriched, not diluted, by the return of such a talent. The De Boer twins, the defenseman Frank and playanywhere-man Ronald, are in a category that would be coveted by any country; Frank organizes the team and leads by left-foot example, Ronald prefers central midfield but performs with uncomplaining effectiveness for

ENNIS Bergkamp, scoring his 35th goal Monday for the Netherlands, is beginning to take upon himself the responsibility for making things happen in attack — another leadership role that has been a long, persuasive task for the player considered the link between past and

the team on the right.

present Dutch eras. And Hiddink has not waited in the for the Times of London.

mind for all this to reach maturity just because he wishes it. His makes the final decisions, but he has recruited three former players as his technical trium-virate: Johan Neeskens, Ronald Koeman and Frank Rijkaa.d. It would be factually correct to ob-

serve that they represent a cross-culture of recent Netherlands teams. But it key to the coach's work has been to would be wrong to read into things that Rijkaard, for example, was engaged because of his color or because he might lobby for players who are young, way ward and black.

The technical trio are a buffer between coach Hiddink and the myriad pressures on a team manager, but they are chosen because they have been a part of Dutch teams that have been to the finals, and almost won them. finals, and almost won them.

The part of the pa

So often the cause has slipped through Holland's grasp. So often has talent been betrayed by temperament, distracted by commercialism and sometimes by assuming the prize would come without sacrifice or without communal effort.

The three coaching assistants are there to remind the current squad that it

Christian Vieri, suffering from sore muscles, leaving practice Tuesday.

Before the Cup, No One Noticed Italy's Vieri, Now the Star

By Steven Goff **Washington Post Service**

THE beginning of the World Cup brought predictions of all sorts with Brazil against almost anyone else in the championship game, more red cards, fewer scoreless matches. When the subject turned to the tournament's

Gabriel Batistuta of Argentina, Alan Shearer of England, Oliver Bierhoff of Germany.

No one mentioned Christian Vieri of Italy—
and for good reason. He had made only eight international appearances and wasn't even regarded as the greatest scoring threat on his team. That label was affixed to emerging superstar Alessandro Del Piero, or, if he wasn't up to the

high scorer, picking the top candidates was as easy

as converting a penalty kick: Ronaldo of Brazil,

task, to 1994 hero Roberto Baggio. But as the World Cup continues through the elimination rounds, Vieri tops the charts with five

goals in four matches to lift Italy into contention for a fourth world title. He struck for the only goal Saturday as Italy eliminated Norway in the round of 16 at Stade Velodrome and earned a quarterfinal showdown

with France on Friday in Saint-Denis near Paris.

"It is true --- at the moment I'm going through a very good period," Vieri said. "Five goals is great, and of course, I am very happy. I want to do better, I want to score more goals. But above all, I want to go as far as possible in the competition with this

Although only 24, Vieri has made many stops on his odyssey to soccer stardom. He was born in Bologna but lived until age 9 in Australia, where his father, Bob, went to play after many years in the famed Italian League. He converses in Italian most of the time but also is one of the few national team players who is fluent in English.

Vieri returned to Italy, and at 15 signed his first contract, with Prato in the Third Division. Then it was off to the big time, to play for his dad's old club, Torino, but he played in only seven Serie A matches in two-plus seasons and went searching for a new home. There were stays with Pisa and Ravenna, obscure clubs in the Second Division, before returning to the top league with Atalanta. There, he established himself as a scoring threat on the national scene with seven goals in his only

Spotting the potential for Italy's next great scorer, the legendary club Juventus bought Vieri's contract in 1996 to bolster an attack that already

included Del Piero and Croatia's Alen Boksic. An injury to Boksic opened a starting spot for Vieri, who seized the opportunity and formed a dangerous tandem with Del Piero as Juventus won the league title and advanced to the European Cup

It seemed to be the beginning of a long, prosperous career at Juventus, which is known as "The Old Lady" of Italian soccer. But as in the United States, professional sports is big business in Europe, and seeing a chance to profit from its wealth of scoring talent, Juventus last summer sold Vieri to Spain's Atletico Madrid for 34 billion lire
— about \$20 million — in one of the most expensive transfers ever. His four-year contract pays

him an estimated \$1.5 million per season. In his first season in Spain, Vieri and Atletico finished tied for fifth in La Liga with a 16-10-12 record. His arrival, however, helped Atletico lead the league in scoring with 79 goals, one more than champion FC Barcelona.

While Vieri has made steady progress in his pro

career, his national team status has skyr He got his first break from the curre national team coach, Cesare Maldini, then the under-21 coach who called him up to that junior squad. In his first intern-'ional appearance for the full national

team, in a March 1997 victory over Moldova in a World Cup qualifier, Vieri scored Italy's 1,000th all-time goal. Later last year, he scored a crucial goal in Italy's triumph over Russia in a World Capqualifying playoff series.

In the World Cup, serving as the target man on a forward line with the crafty Del Piero or Baggio in

forward line with the crafty Del Piero or Baggio in a supporting role, Vieri has emerged as Italy's most dangerous player.

"Since the beginning of the competition."
Maldini said, "Christian has lived up to our expectations. He's a player that keeps getting better, we saw again.

Vieri scored 10 minutes into Italy's first World Cup match, during a 2-2 tie with Chile. He added two second-half goals to allow Italy to pull away from Cameroon, 3-0. And he scored the first goal in a 2-1 victory over Austria in the Group B firstround finale.

"I'm very pleased to be the top scorer in the competition," Vieri said, "but the important thing is Italy is in the last eight. I am glad we have not p'wed our final game yet." de would like nothing more than to play his final

Javier Zanetti of Argentina took a pass from Juan Veron at a free kick on the edge of the England area to curl a leftfooted shot into the roof of the net for the qualizer just before halftime.

The two penalties in the opening nine

minutes set the game alight in an already supercharged atmosphere in the Geoffrey-Guichard stadium. Éngland's goalkeeper, Seaman, needlessly brought down Diego Simeone after a mix-up in the defense, and Batistuta drove home the sixth-

fingertips.

With the game bubbling and the dangerously unsegregated fans already exchanging unpleasantries behind one of the goals, England took the lead with a

tage, was pressing harder but England wonder goal from Owen.

Ince broke up a menacing Argentina move on the edge of his own area and fed Beckham, who was well-placed just short of the halfway line.
The Manchester United midfielder

found Owen 45 meters from the goal and the Liverpool teenager started his amazing run.

He beat Jose Chamot and cut to his right to drift past Ayala and headed for the goal. Owen, with only Argentina's goalkeeper Carlos Roa to beat, even had help from the unguarded Paul Scholes but was confident of going it alone, driving the ball home from 12 meters.

England's coach, Glenn Hoddle, said Tuesday his team was distraught but proud after the defeat on penalties... "Still, with 10 men we defended like

lions. It's a bitter, bitter pill to take, and we are absolutely distraught tonight but proud at the same time." Hoddle said. Argentina will play the Netherlands in a quarterfinal match Saturday in Mar-

Passarella's Coaching Includes Haircuts Croatia to win Group H.

By Christopher Clarey New York Times Service

PARIS - He is clearly a man on a mission, so much so that it is easy to forget that Daniel Passarella has already figured on two World Cup championship teams for Argentina. But the first cup came at home in

1978, when General Jorge Rafael Videla, head of the military junta that was responsible for the disappearances and deaths of tens of thousands of Passarella's countrymen, triumphantly handed him the trophy. "If I'd known then what was happening, I wouldn't have played at all." Passarella, the captain of that

The second cup came in 1986, when he was on the Argentine roster, but an illness kept him on the bench as his teammate Diego Maradona worked wonders with his feet and, in one infamous instance against England, with his fist.

team, has said since.

So perhaps that helps explain why Passarella, now national technical director and coach, has erected an 2.4meter-high fence around Argentina's French training base in L'Etrat and insisted on keeping distractions, in-cluding interviews, to a minimum. This Argentine team, which in every sense is his team, has a chance to give him a title without an asterisk.

First it must get past England in the second round Tuesday, in what is viewed as a grudge match by the English. They will never forget nor entirely forgive Argentina for Maradona's handball that became a goal in the 1986 quarterfinals.

"I didn't sleep for four days afterward," said England coach Glenn Hoddle, who, unlike Passarella, played in that match.

Passarella has been less forthcoming with his reminiscences, but his team, an intimidating mix of polished veterans and gifted youngsters, is clearly the favorite against England. It has not given up a goal in its last eight matches. With midfielder Juan Veron, who excels at organizing, midfielder Ariel Ortega, who excels at creating, and striker Gabriel Batistuta, who excels at scoring, its strengths are hardly on the back line

"We are gathering strength." Passarella said after his team defeated

Only two other men have won World Cups as players and coaches: Mario Zagallo of Brazil and Franz Beckenbauer of Germany. But Passarella already shares a continent with Zagallo and a nickname with Beckenbauer. At home, the stocky, skylishly dressed Passarella is known as "El Kaiser," and at 45 he is as focused and unflinching a coach as he was a central defender in a fine career that took him from the Argentine club River Plate to the Italian First Division. He was a high-scoring defender, in part because he often took penalty kicks, but he is best remembered for his intensity, and it is telling that he received a red card in the club match that was intended to honor his career.

Passarella has experienced personal tragedy: the death of his 18-year-old son, Sebastian, in an automobile accident. He has had to live with regrets: the 1978 World Cup and the junta it helped legitimize. But if he has adopted a hard line with Argentina now, it is also because of timing. When he took over the national team in 1994, it had just been through a convulsive, divisive experience at the World Cup in which it had started brilliantly and then fallen apart after Maradona tested positive \ for ephedrine and was suspended from the tournament. Passarella, who had already coached River Plate to three Argentine titles, took over with the intention of emphasizing rigor and professionalism

Practices became more structured Players were required to undergo nasal examinations to ensure that none was using cocaine. But what would become the biggest conversation piece at home and abroad was Passarella's decision to ban long hair. His public explanation was that long hair was a distraction during matches, but for Batistuta, one of those who trimmed his locks, that was not Passarella's only reason.

"I cut mine because there was a project to change the image of the Argentine player," he said. "It was a question of helping out Passarella." El Kaiser says that however far his team goes in this World Cup, he does not plan on trying again in 2002. The day after Argentina's last match in

Trying to Disperse Soccer Fans, French Riot Police Trigger a Melee

The Associated Press

SAINT-ETIENNE, France - A sudden show of force by French riot police seeking to avoid violence before a World Cup playoff between England and Argentina triggered insults, scuffles and charges with wild batons early Tuesday in the center of this industrial city.

Police arrested several English football fans and some local toughs. There were some minor injuries, mostly caused during crowd stampedes. In a separate incident near the sta-

dium, local French-Tunisian youths insulted and attacked English fans, ap-parently in retaliation for skirmishes in

fans fought back.

The police intervened, arresting about nine locals and an Englishman. Local youths burned several cars.

The trouble in the city's center began shortly after 11 P.M. Monday, when a huge outdoor screen that showed the Netherlands-Yugoslavia game went blank. Its last image was a message saying it would not show the England-Argentina match Tuesday night.
Also at 11 P.M., bars and restaurants

shut their doors. Hundreds of police with riot helmets and shields moved in to clear the area.

Some English fans yelled at the po-Marseille two weeks ago, and English lice and began singing what has become

their World Cup trademark in the face of police and local opposition: "No surrender, no surrender to the IRA" - a reference to troubles in Northern Ireland. Within minutes, there were

scuffles in the streets. Police officials had no immediate comment, but all sides - including British police hooligan spotters -- faul-

ted the French police.
"Why did they do that?" asked Ben Murphy, 22, an English engineering stu-dent from Lincoln, as he watched columns of nervous police in riot gear, backed by burly plainclothes officers, tighten cordons around the brightly lit City Hall square.

"This was ridiculous, just looking for trouble," said Mariano Recalde, 26, a lawyer who flew from Buenos Aires to watch Argentina play. "The cops panic easily here, don't they?"

An Englishman with shaved head and earrings threw beer on a French photographer. Among obscenities, he shouted: "It's because of you they call

us hooligans." Nigel Bobroff, a young company di-rector from London, who came to watch the match but cautiously left his wife and family in Lyon, 55 kilometers (35 miles) away, explained: "England has the best football fans in the world. But the trou-

THAUCHT I

ble is that it also has the worst."

HETRE BOING.

Two British policemen in footballfan dress, who spoke only on the condition of anonymity, said that French police might have avoided trouble by quietly isolating potential trouble-makers ahead of time, while keeping their main force out of sight.

Later Tuesday, in an effort to forestall further violence. French police aided by a British hooligan-spotter arrested a 25-year-old Englishman as he stepped off a train after a British officer identified him as a "category C" soccer fan, considered among the most dangerous.

Authorities nearly doubled security forces to about 1,600 police for the evening match.

Reinventing America? Just Leave It to London

By Alan Riding

ONDON - If New Yorkers have recently acome away with the impression that British theater is taking over Broadway and its environs, they may feel reassured to know that American culture is alive and well in London these days — and not just through those peculiarly American art forms, the Broadway musical and the Hollywood blockbuster.

Thanks to "Inventing America," a \$4.8 million festival organized by the Barbican Center and sponsored by American Airlines, London is being offered a smorgasbord of U.S. arts through a program of theater, dance, visual arts shows, opera, classical and contemporary music, jazz, and cinema, running from January through November this year. The Barbican has called it the biggest festival of American culture ever held outside the United States.

While the latest American imports, like the musicals "Rent." "Show Boat," and "Chicago." have no difficulty in finding West End theaters eager to receive them, only a subsidized arts center like the Barbican - it has a \$38 million annual grant from the city of London - is able to present less commercial aspects of American culture.

"We wanted, quite unapologetically, to reflect the fact that the United States is one of the major cultures of the 20th century." Graham Sheffield, the Barbican Center's arts director, said of "Inventing America." public's reaction has been enthusiastic."

Half the audiences are people coming to the Barbican for the first time.

John Tusa, the center's managing director, is no less delighted by the response because the American festival is also the highlight of what has been tagged the Reinventing of the Barbican, a strategy provoked by the Royal Shakespeare Company's decision not to use the center, its traditional London base, from May through November each year. "We decided that this offered an opportunity to

mount our own season." Tusa said.
Inventing America" nonetheless aspires to more than simply filling the gap left by the Royal Shakespeare Company. The program began with art exhibitions and concerts well before the company ended its 30-week season in May.

Peter Sellar's production of the Chinese classic opera "The Peony Pavilion," with "Inventing American American Company of the Chinese classic opera "The Peony Pavilion," with the New York-based Chinese composer Tan the Twyla Tharp Dance Company in July

John Tusa, the Barbican's managing director, is delighted by the response.

occasion. This production, which will later pany in October as well as an all-American travel to Paris, Berkeley, California, and New York, is a much shorter version of the opera than the Kunqu Opera Company production that has thus far been prevented by Shanghai cultural officials from traveling to New York for next month's Lincoln Center Festival.

Soon to be seen for the first time in Britain Boys': "2.5 Minute Ride." by the writer and performance artist Lisa Kron: Roger Guenveur Smith's one-man show. "A Huey P. Newton Story." and "The Man Who Came to Dinner" by George S. Kaufman and Moss Hart in a new production by the Steppenwolf. Hart in a new production by the Steppenwolf

Theater Company in Chicago.

Perhaps the greatest novelty, though, is the dance program, because it reflects Sheffield's determination to give contemporary American and international dance a London home: Until now, the likes of Mark Morris One of the highlights of the fall will be and Pina Bausch were regulars only at the

Dun fusing traditional and new music for the and the Merce Cunningham Dance Commusic program by the British choreographer Siobhan Davies.

The visual arts centerpiece this summer is "The Warhol Look," a touring exhibition organized by the Andy Warhol Museum in Pittsburgh focused on the artist's obsession with glamour, style and fashion.

During the fall, the center will present a different kind of photography in "Native North American: Photographs From the Edge," which will include about 300 images of Indians made between 1850 and 1914 as well as photographs of indigenous tribes taken around the turn of the century by Edward Curtis.

In classical music, the Barbican Center has the advantage of being the permanent residence of the London Symphony Orchestra. It will give numerous concerts of American music, including four programs in which John Williams will conduct his own compositions and a celebration of Elliott Carter's 90th birthday to be conducted by Pierre Boulez.

Orchestras and ensembles visiting from form as traditional European pursuits."

the United States include the New World Symphony Orchestra under Michael Tilson Thomas, the Minnesota Orchestra, the Detroit Symphony Orchestra, and the Emerson

String Quartet. Among soloists who have already per-formed here — or will in the fall — are the sopranos Barbara Bonney, Kathleen Battle. Dawn Upshaw and Barbara Hendricks, the

baritone Thomas Hampson, the tenor Jerry

Hadley, and the violinist Itzhak Perlman. Presumably appealing to a different audience is the program of contemporary American music. The jazz section is particularly rich, with the drummer Max Roach performing gospel songs with a New York choir and performances by Herbie Hancock. Sonny Rollins and George Russell. Another section. "Sing It Loud (I'm Black and Proud)," focuses on the musical contribution of African-Americans in everything from soul and blues to rock and rap, with Ray Charles and James Brown on the program.

The organizers of this festival can hardly aspire to putting on something this large every year, but they are determined to reinforce the center's international profile by institution-alizing what they called the Barbican International Theater Event as a way of drawing more unconventional theater to Britain.

Already this year's non-American program involves a production by St. Petersburg's Maly Drama Theater of "The Possessed" by Dostoyevsky and a Japanese version of 'Hamlet,'' directed by Yukio Ninagawa.

"We can now fill a yawning gap in the London theater scene," Sheffield said of life without the Royal Shakespeare Company. "I imagine our becoming a mixture of the Brooklyn Academy of Music and the Ednburgh Festival."

Indeed, "Inventing America" may itself help smooth the way for more noncom-

mercial American culture here. It has prompted some Britons to think twice before engaging in what one critic called "sneering" about the "serious" arts

in the United States. Behind our easy snobbery is a sense that Americans spend their lives slobbed out either behind a wheel or in front of a television," the critic Simon Hoggart wrote in The Guardian, "as if most Britons were any different, except in the greater poverty of our aspiration. The fact is that America is stuffed to the gunwales with artistic talent and enterprise. It just doesn't always take the same

THE King is set to become the second performer to become a Hall of Famer in both rock 'n' roll and country music. Elvis Presley will be inducted Sept. 23 into the Country Music Hall of Fame, the Country Music Association said. Currently, only Johnny Cash is honored at both the Hall of Fame museums, in Nashville, Tennessee, and Cleveland.

The actor Sylvester Stallone announced that his wife, Jennifer Flavin, gave birth to their second daughter, Sistine Rose. The couple, who wed in 1997, have a 22-month-old daughter, Sophia Rose, who underwent surgery last fall to repair a hole in her heart. Stallone's publicist said Sistine Rose was

Leonardo DiCaprio settled his lawsuit against Playgirl, which had sought to publish nude photographs of the star of "Titanic" in its July issue. Terms of the settlement were not released. "The parties amicably settled their differences," said Kent Raygor, attorney for Playgirl. Brad Pitt filed a similar lawsuit against Playgirl last year.

Warning that France's cultural influence is wan- Skorupan, was left unchanged.

ing, Jack Lang, the former culture minister, proposed the creation of a Ministry of Foreign Cultural Affairs. In the newspaper Le Monde, Lang, who heads the Foreign Affairs Committee in the National Assembly, cited the decline of French movies and cuts of 15 percent in the last three years in the budget to promote French culture abroad. A lack of action, he said, "will threaten our political influence and compromise our economic opportunities."

Queen Beatrix's father celebrated his 87th birthday as did most of his subjects — by cheering the Dutch soccer team. Prince Bernhard spent a lowkey birthday at home watching the Netherlands defeat Yugoslavia in the World Cup on television.

A French appeals court slashed a fine imposed on the star newscaster Patrick Poivre d'Arvor for assaulting a paparazzo who tried to take pictures of

his vacation with a colleague, Claire Chazal, on a Greek island. The court cut the 50,000 franc (\$8,250) fine to 10,000 francs and said the penalty would not be registered on Poivre d'Arvor's criminal record. The 10,000 franc fine for invasion of privacy imposed on the photographer, Franck

Finale for Chinese Opera?

S HANGHAI — China has brought the curtain down on a Shanghai opera troupe that had hoped to perform at the Lincoln Center Festival in New York.

The classic Chinese opera "The Peony Pavilion," which has become a controversial sideshow to the China visit of President Bill Clinton, failed to gain approval from Shanghai censors to make it in time for its planned

July 7 debut, an official of the festival said Tuesday.

By withholding permission for the opera company to leave for New York, the Shanghai Municipal Bureau of Culture "has effectively canceled the performance of 'The Peony Pavilion' at Lincoln Center Festival '98.' said Nigel Redden, festival director.

Local censors seized a shipment of props for the opera on the eve of the visit to China by Clinton, who is now in Shanghai. They later reversed their decision, allowing the

Redden had said he had needed approval for the troupe by Tuesday for it to take part in the festival. We find this decision truly incomprehensible." Redden said, adding that Lincoln Center and the opera's director, Chen Shizheng, had made every effort to address

the concerns of the Bureau of Culture. Chen had made numerous changes in the opera that the cultural authorities found objectionable, including some passages that contained bawdy language and

superstitious images.
